## Better Space Use Is Urged . . . In County-City Building

By GERRY SWITZER  
Star Staff Writer

Better utilization of existing space and hiring of a fulltime professional building administrator were major recommendations announced Thursday by the County-City Building Task Force of the County-City Implementation Commission.

According to the report, there is a need to combine the management and operation of the County-City Building under one authority "not only for the most efficient operation of the building but for future planning and expansion."

The task force noted that it is believed by hiring a fulltime professional building administrator economies could be achieved; and the mayor, city council members and county commissioners could be relieved from routine administrative functions.

### An Administrator

Task force members pointed out that this individual should not necessarily be a building engineer or replace a building superintendent but should be an administrator with expertise in building management.

The task force recommended that expansion of the present building should not be considered until maximum efficiency is obtained within the existing building.

The report states that a restudy of both service and consumer areas of the building should produce better utilization of the existing facility.

"The building plan is a collection of separate office layouts satisfying, perhaps, the original ideas of various department heads, but weakened by the lack of overall view of space planning," the report notes.

It was estimated with a professional manager and utilization of bidding procedures

for purchase of supplies that the County-City Building budget could be cut from the current \$613,500 to \$473,699.

Task force members Vern Traudt and Gene Cederdahl noted that a study of County-City Building purchases for the months of August, 1973, and January, 1974, showed, for example, that the city and county paid \$30.70 per dozen for one dozen 19 ounce aerosol cans of glass cleaner as compared to the \$11 the state paid for one dozen 23-ounce cans of glass cleaner.

### Should Be Studied

They emphasized that the product the County-City Building is using may be of better quality than that being used by the state but thought both quality and cost should be studied considering the wide variance in price.

Traudt and Cederdahl also noted that paint is now being purchased at regular consumer cost when considerably lower prices could be obtained by annual bid of paint.

Other areas cited as needing study included the telephone system and use of outside services for building maintenance such as the cleaning of mop heads.

### Authority Needed

The task force further recommended that a County-City Building Committee be created which would have power and authority to make binding decisions with respect to management operating, repairs and replacements as well as expansion.

The present County-City Building Committee makes recommendations which require City Council and County Board approval.

The recommendations of the task force will be forwarded to the CCIC Citizen's Advisory Committee and then to the CCIC for final recommendation.

# Transcript 'Bad' . . . Counsel Voices Doubts

WASHINGTON (AP) — The chief counsel of the House impeachment panel declared Thursday the White House Watergate transcripts are "inadequate and unsatisfactory."

John Doar said he told the Judiciary Committee he is concerned both about the accuracy of the documents "and the judgments of the President and his counsel in deleting material on the grounds of relevance."

President Nixon's chief Watergate lawyer, James D. St. Clair, took affront at Doar's remarks and wrote Chairman Peter W. Rodino Jr., D-N.J., that they were "gratuitous in the extreme."

A comparison of the transcripts with tapes already in the committee's possession show that the panel "should not rely on those transcripts," said Doar.

St. Clair acknowledged in his letter of complaint that "The committee's own experience in listening to tapes discloses the variety of meanings, degree of inaudibility and alike that can exist," but he said that "despite such verbal differences the meaning of the entire conversation viewed as a whole is not subject to serious differences of opinion as to what is said."

Despite Doar's assessment, neither he nor Rodino would immediately support proposals aimed at pressuring Nixon further to turn over remaining tapes of the conversations.

In the face of a second presidential rebuke Wednesday of committee subpoenas demanding those tapes and other data, Rodino said the panel should continue to subpoena evidence it deems necessary — and consider any rejections as possibly im-

peachable offenses in themselves.

The committee met in a closed, abbreviated session during which it heard evidence focusing on the first half of April 1973, when the Watergate cover-up began to unravel.

The panel has the edited White House transcripts of presidential conversations during that period, but no tapes.

The next committee session is scheduled for Wednesday when Rodino said he hopes to complete hearing evidence about the Watergate cover-up.

### In Related developments:

—Attorneys for former presidential aides accused in the break-in at the office of Daniel Ellsberg's psychiatrist asked a federal judge to transfer the trial out of Washington on ground that the Watergate scandals make it impossible to choose an unbiased jury in the capital.

—Atty. Gen. William B. Saxbe said only he can fire special Watergate prosecutor Leon Jaworski and "I have no intention to do so." Saxbe made the comment when questioned by newsmen about the latest conflict between Jaworski and the White House over access to presidential files. Jaworski complained this week that the White House was challenging his authority to take President

Nixon to court to enforce subpoenas.

—Vice President Gerald R. Ford told a Republican rally in Wilmington, Del., that he hopes President Nixon will give the House Judiciary Committee relevant material and "the sooner the better."

—The Los Angeles Times reported that the head of the ITT investigation in the special prosecutor's office intends to resign in protest over the agreement which allowed former Atty. Gen. Richard G. Kleindienst to plead guilty to a minor charge stemming from his testimony to a Senate committee about the ITT antitrust settlement. The prosecutor's office declined to comment on the report.

—Convicted Watergate conspirator James W. McCord said in a just-released book he believes President Nixon knew in advance of the Watergate break-in and knew of the cover-up long before March 21, 1973 — the date Nixon says he learned of it.

Rodino said some of the areas in the transcripts that give him concern are misstatements, omissions of words or paragraphs, statements attributed to the wrong people, the numerous passages marked inaudible, the material deleted as not relevant and the use of paraphrasing.

STAFF PHOTOS BY BOB GORHAM

. . . but when Oscar shakes, stand clear.

## Oscar? In A Mini-Course

By DICK HOLMAN  
Star Staff Writer

Oscar didn't even grimace. (Dogs, frankly, can't grimace, but they can grunt and growl, which the Saint Bernard didn't do, either.) If Oscar doesn't mind being spoken for — he woofed no wary objections — he submitted pleasantly Thursday in a dog-washing lesson as the guinea pig.

No offense, Oscar. (You can't be too careful: Oscar, almost 5, weighs 165 pounds.)

### Just Enough Room

There was just enough room on Oscar for 12 pairs of hands to get a real feel of pet care, one of 17 spring mini-courses at West Lincoln School.

Prepared for the scrubby, blue-jeaned and sweatshirted teacher Mrs. Adrienne (John) Schmidt dropped a dab of shampoo into each small hand. But Oscar would have none of it — not until he slurped some king-sized gulps from his bathwater-to-be in a child's play-pool.

The pint-sized kids convinced Oscar to sit for the suds by putting their shoulders to his massive head — as big as a man's. Thus subdued, Oscar succumbed to laughter and lather.

### Caution Suggested

"If we wash his head, he'll be sick," cautioned one youngster. Another, shampoo in his own hair, instructed, "Not everybody on his back!"

"I wonder if he enjoys it?" another child frowned, giggling, while his classmate responded, "Oooooo. Oh, man—yeech!"

"Just rub it in," Mrs. Schmidt gently explained, "and make sure you get clear down to the skin."

The youngsters conscientiously tended to Oscar's underside, delightedly not forgetting his tail.

Mock screams filled the schoolyard when Oscar twice ominously rose from his bathwater, to be coaxed back to his haunches.

### Who Got Washed?

"I'm getting washed. I don't have to take a bath tonight," came another comment out of the rubs.

The kids sprinted — with handfuls of hair and sopping pants — when Oscar six times decided to shake off the soap. His tongue lolled agreeably as the children learned about rinsing and brushing.

"We wanted to teach or to motivate the children for some particular interest they could carry over into the summer," said West Lincoln Principal Mrs. Margie E. Elloe.

Participation is strictly voluntary in the interest groups, which include fishing, badminton, macaroni, dip and dye, baking, outdoor games, tennis, embroidery-crewel, rug making, card games, German, beading, weaving, knitting, plaster plaques and crafts.

### Kids Given Choice

Kids ages 6 to 12 participate together in the mini-course of their choice for an hour each day. Mrs. Elloe said the multi-aged groups develop cohesiveness among the children: "The little ones feel big and the big ones feel like leaders."

West Lincoln began the spring mini-courses last year, and held another session at Christmas, studying holiday customs. "The parents really appreciate this," Mrs. Elloe said, noting their enthusiasm for its continuation.

A couple of parents are helping teach the courses, as well as a retired teacher from San Francisco, Mrs. Freia Fitchow.

## Baker To Leave Hospital Board

By LYNN ZERSCHLING  
Star Staff Writer

City Councilman Dick Baker confirmed Thursday that he has resigned from the Lincoln General Hospital Board of Trustees to eliminate any possible conflict of interest he may have on hospital related matters.

Baker stepped down from the seat, he said, because he still is "getting a little static" from people about his operation of a pharmacy at the hospital's Physicians Building. The building is city-owned.

Baker opened the pharmacy Sept. 1. He was awarded the contract at an April 26, 1973, closed meeting of the

Lincoln Hospital Association Board, a private corporation. The members of the association board, however, also act as the members of the public hospital board.

At those April meetings, Baker said he disqualified himself from participating in the board's consideration of bids for the pharmacy.

And since being awarded the contract, the pharmacist said he has declared a conflict of interest on matters relating to the Physicians Office Building.

Some people apparently feel "some hanky panky" went on behind the closed doors when he was awarded the

contract, Baker said, "and there wasn't."

Baker said he decided to resign his position as one of the council's representative to eliminate doubts about his involvement on the board.

Baker added he has received negative comments from different "individuals," not any particular group.

The council's other representative on the board is Bob Sikyta. Sikyta replaced Helen Boosalis as a member last summer.

The lawmakers will have to appoint a new member to take Baker's seat.

## Hostage Captures Helicopter Hijacker

NEW YORK (AP) — In a taut drama played out atop a mid-Manhattan skyscraper, a bearded man in blue jeans was overpowered Thursday after he hijacked a helicopter at the point of a gun. He had demanded that \$2 million in cash ransom be delivered by a bikini-clad girl.

A 21-year-old hostage aboard the aircraft jumped the gunman on the roof of the 59-story building and captured him, after pilot Thomas Olivo had been shot in the right arm while fleeing the helicopter.

"I like living," was the explanation of the hostage, William Hale, for taking on an armed adversary.

Asked if he'd ever been arrested before, the captured hijacker replied: "I never even got caught jay-walking."

"Oh, man, those cops," the gunman exclaimed at one point after police had seized, stripped and manacled him. He then was hustled for questioning to a restaurant just below the abandoned heliport where he was captured, on the roof of the Pan American building.

The blue and white, five-passenger helicopter was owned by Wall Street Helicopters, Inc., an air taxi service that ferries commuters in and out of the city daily from Glen Cove on Long Island.

Olivo had set the aircraft down at a pad near 34th Street and the East River for refueling. The

pad is operated by Island Helicopters-Metrobus Inc., of Garden City, and Hale was the company groundman in charge.

While the ship was being refueled, the bearded man appeared, wearing blue jeans, a sweatshirt and sneakers. He was about 5 feet 10.

The ground chief, Hale, said the man approached him and displayed a homemade zip gun and a sawed-off rifle.

"Get in the copter and lie down," Hale was commanded. Pilot Olivo was inside the aircraft at the time.

Olivo took off from the 34th Street heliport at 12:58 p.m., with Hale also a captive aboard. In the brief flight to the Pan Am building, the two men said the hijacker discussed the Maalot massacre of last week in which Palestinian terrorists killed 26 Israelis.

It was then, also, police said the gunman made his ransom demand — \$2 million in \$10 bills in eight valises to be delivered by a girl in a bikini bathing suit, presumably so she could not conceal any weapon.

As the helicopter settled noisily atop the Pan Am building in a light rain, the hijacker brusquely directed the pilot to secure it. Instead, Olivo leaped out and ran. The gunman pumped one bullet at him from the rifle. It caught Olivo in the arm and lodged in a shoulder muscle in the chest.

## Officials' Statements Anger The Hearsts

HILLSBOROUGH, Calif. (AP) — Patricia Hearst's parents are outraged at statements by authorities who have filed felony charges against her, an attorney said Thursday.

"I tend to agree with their outrage," former U.S. Atty. Cecil Poole said after meeting with Randolph and Catherine Hearst, Poole, an Oakland attorney, said he offered his services as counsel for Miss Hearst.

"They expressed outrage at the excessive statements of law enforcement personnel, particularly statements by the Los Angeles district attorney who said he has a veritable flood of charges against Miss Hearst," Poole told newsmen.

He said statements were "counterproductive" and "un-

fair" and are probably "prejudicing the case of the defendants."

"She was a young girl who was kidnapped," Poole said of the 20-year-old newspaper heiress. "Something happened to her and now they are calling her a fugitive on the run."

Dist. Atty. Joseph P. Busch of Los Angeles has filed 19 charges against Miss Hearst, including counts of kidnapping, robbery and assault with a deadly weapon. "In our opinion, Miss Hearst was acting on her own free will," Busch said after filing the charges.

Along with Miss Hearst, authorities also are seeking William and Emily Harris. The three were allegedly involved in a shoplifting attempt at a sporting goods store in a Los Angeles suburb on May 17. Miss Hearst allegedly sprayed the front of the store with machine-gun fire, allowing the Harrises to escape.

# Arab Terrorists' Plot Thwarted By Israelis

TIBERIAS, Israel (AP) — Israeli forces on Thursday killed six Arab guerrillas who planned to take hostages near the Sea of Galilee and blow them up unless Israel freed 30 guerrilla prisoners, the military command announced.

Armed with eight automatic rifles, 30 grenades and 22 pounds of high explosive, the infiltrators crossed from Syria into Israeli-held territory with orders to "blow up the houses we had captured with the hostages and ourselves as well" if necessary, said one of two surviving guerrillas who surrendered to an Israeli patrol.

"If the demands were not met there would be a massacre," the guerrilla told newsmen at an Israeli forward command post on the Golan Heights.

The suicide squad was carrying messages for the ambassadors of Japan, France, Austria and Romania in Tel Aviv to negotiate the prisoner trade. Their targets were the Israeli fishing settlements of Haon and Ein-Gev, the military said.

The plot was patterned after last week's attack on the village of Maalot, where 21 schoolchildren and five adults were killed. The three guerrillas involved in that raid also were killed.

Interrogation of the captives disclosed the gunmen belonged to the Popular Democratic Front for the Liberation of Palestine, the guerrilla group that mounted the Maalot assault and demanded release of 23 guerrillas held by Israel, the command said.

"Possibly they were planning to get in touch with me because Kozo Okamoto is in jail here," Japanese Ambassador Kuzuhide Kamurao told a newsmen. He referred to the lone survivor of the Japanese suicide squad that massacred 26 victims at Tel Aviv's Lod airport two years ago.

"They have asked for him before," said the diplomat. "It is better they never got a chance to call me."

Arab guerrillas who raided Maalot were attempting to negotiate with the French and Romanian ambassadors when Israeli troops stormed the school to free 85 teen-aged boys and girls. The Arabs killed 21 children before they also were slain.

**Pet Pets Pet**

A monkey named Alice Faye gently holds a kitten named Sweetie Pie. Alice, according to Pat Shepherd of Sacramento, Calif., owner of both animals, likes to hold the kitten, clean it and even kiss it. She says the monkey treats Sweetie Pie just like a baby.

Parade is the big four-color picture magazine section in the "Sunday Journal and Star."

## Mideast Breakthrough Reported

JERUSALEM (AP) — Secretary of State Henry A. Kissinger has moved Israel and Syria "considerably closer" to agreement on thinning out their forces on the Golan Heights, a senior U.S. official said Thursday night.

He said the breakthrough resulted from Kissinger's introduction of undisclosed American ideas, first in a meeting with Premier Golda Meir and Israeli negotiators and

later in a 4½-hour talk with Syrian President Hafez Assad in Damascus.

In a long day of shuttle diplomacy, the official said, Kissinger also made progress on determining the size of the United Nations force that will patrol the thinned-out regions as well as the demilitarized buffer zone between the Israeli and Syrian armies.

Kissinger will report to Israeli leaders Friday morning and

return to Damascus later in the day or early Saturday, hoping to wrap up the over-all disengagement settlement.

In any event, the official said, Kissinger will head back to Washington by Sunday.

Kissinger said earlier Thursday there had been "great progress" toward a Golan Heights disengagement accord, but added that he might not be able to complete it during his current Mideast mission.

## Cheating Uncovered At Naval Academy

ANNAPOLIS, Md. (AP) — U.S. Naval Academy officials were investigating on Thursday what could become the school's largest cheating scandal, an incident midshipmen report may involve 100 or more students.

The Academy superintendent, Vice Adm. William P. Mack, said officials have determined that an unspecified number of midshipmen had advance answers to a final exam Tuesday in a required sophomore navigation course.

Mack said no one has yet been accused of cheating and added the probe should be completed within a week. A reexamination is slated next Tuesday for the more than 900 students who took the

original exam.

Midshipmen interviewed on campus said that from 60 to 150 students were caught during the exam with test answers written in the margins of chart and table books navigation students are permitted to use to solve problems on the test.

Midshipmen sources said a copy of the navigation final was obtained ahead of time, permitting some students to work out answers in advance of the test.

Mack declined to say how many students are under suspicion, but under questioning he stated he thought that from 40 to 50 middies had material confiscated during the exam.

The superintendent said he did not yet

consider the situation serious but added he would if even five or 10 midshipmen are deemed guilty of cheating.

Officials said that under the academy's honor system, a proven case of cheating brings automatic expulsion from the school.

Lewis said the Naval Academy has not had a cheating incident in recent years and previous ones involved only a handful of students.

If the current case involves the number of middies students say it does, it would rival the nation's most serious service Academy cheating scandal — an Air Force Academy's exam theft case which forced 109 cadets to resign in 1965.

### New York Times News Summary

#### U.S. Agrees; No Mininukes

Washington — The United States assured the Geneva Disarmament Conference that it would not develop miniature nuclear weapons that could be used interchangeably with conventional battlefield weapons. There has been concern that such low-yield "mininukes" could blur the distinction between conventional and nuclear warfare and thus increase the chances for full-scale nuclear war. In issuing the policy statement on the last day of the conference's spring session, the United States left itself free to improve its present family of tactical nuclear weapons.

#### Reds Deal For Junction

Moscow — The Soviet foreign ministry told China Thursday that Chinese ships can gain direct passage between the Amur and Ussuri Rivers provided Peking recognizes Soviet sovereignty over the important disputed river junction near Khabarovsk in the Soviet Far East.

#### Move Said No Setback

New Delhi — Indian officials are said to feel that Canada's decision to suspend her nuclear aid to India will not set back the Indian nuclear energy program. The collaboration in the nuclear field that began in 1956 is no longer substantial. Meanwhile, official

sources disclosed that Prime Minister Indira Gandhi had written to Prime Minister Zulfikar Ali Bhutto of Pakistan to assure him that India had only peaceful intentions in conducting the nuclear test. Pakistan had denounced it as "nuclear blackmail."

#### Protestants Still Confident

Belfast — Leaders of extremist Protestant groups in Northern Ireland said they would intensify their protest strike and expressed confidence they would bring down the provincial government. Though the barricades virtually disappeared from Belfast streets, spokesmen for the strikers said their efforts to restrict gasoline deliveries would be enough to halt all but emergency traffic.

#### Pope Declares Holy Year

Rome — Pope Paul VI signed a papal edict formally proclaiming 1975 as a holy year dedicated to "renewal and reconciliation."

#### Gay Rights Bill Defeated

New York — A homosexual civil rights bill was defeated by a vote of 22 to 19 in the New York City Council, while supporters of the bill in the balcony shook their fists and shouted "bigot" at the councilmen below.

## How to select an air conditioner.

You can save money on the original purchase and the operating cost of your air conditioner by carefully selecting the unit you buy. Here are a few ideas that will help you choose and operate an air conditioner economically.

### Is it the right size?

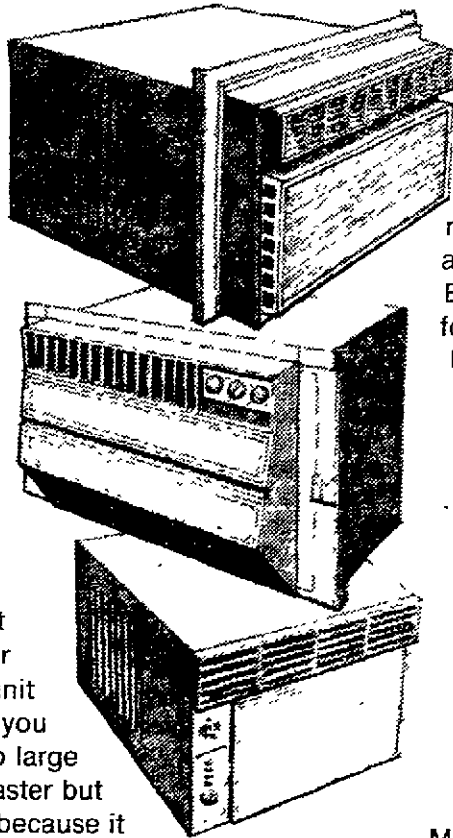

Buying a unit that is rated at the right cooling capacity for your needs is important. A unit that is too small won't keep you cool enough. One that is too large will lower the temperature faster but leave you cold and clammy because it will not stay on long enough to remove excess humidity. An oversized unit will also cost you more to buy and add dollars to your electric bill.

To be sure you select the proper size air conditioner, have your dealer compute the cooling capacity you will need for the room or rooms you want to air condition.

### Is it efficient?

Some air conditioners use a lot less electricity than others to cool the same amount of space. And there is a simple formula you can use to determine how efficient an air conditioner really is. Just divide the rated BTU capacity of a unit by the number of watts it will consume. Both of these numbers appear on the rating plate attached to air conditioners.

When you divide the BTU capacity by the number of watts required, you will get a number known as the Energy Efficiency Ratio (EER). The EER number is usually between 5 and 10. The higher the EER number, the more economical the air conditioner is to operate. It'll pay you to make some comparisons of the EER of

various models before you buy.

Lincoln Electric System recommends you choose an air conditioner with an EER number of 7 or more for lowest operating cost. Units with an EER of 5 or 6 are less efficient and more costly to operate.

**Using the fan on your air conditioner will save you money.**

Most central and window air conditioners may be operated without using the compressor. This allows you to use the fan in these units to provide economical ventilation that will reduce the need for cooling.

### Take advantage of cool outside temperatures.

When the outside temperature drops below the temperature inside, open your windows so that inside heat can escape. Close your home tightly during the hottest part of the day and keep solar heat out by closing drapes, blinds or curtains of windows exposed to direct sunlight.

### Insulation is important.

Just as insulation saves on your heating bill by keeping warmth in, proper insulation also pays summer dividends by keeping heat out. A minimum of six inches of insulation in the attic and 3½ inches in outside walls is recommended.

Remember...electricity is valuable.  
Please don't waste it.

# Watergate Committee Loses Court Battle For 5 Tapes

WASHINGTON (AP) — The Senate Watergate committee lost its 10-month fight Wednesday for five White House tape recordings that already have been given to the special prosecutor, the House impeachment inquiry and made public in edited transcripts.

The U.S. Court of Appeals ruled that the Senate committee had not shown sufficient need for the tapes to fulfill its function of determining whether new election laws are needed.

Sen. Sam J. Ervin Jr.'s committee issued the subpoena for five tapes last July 23, a week after the White House taping system was disclosed in open testimony.

It asked for tapes of conversations of Sept. 15, 1972; Feb. 28 and March 13, 1973 and two of March 21, 1973, all involving talks between President Nixon and then-counsel John W. Dean III.

On the same day the special Watergate prosecutor subpoenaed nine tapes, four of them the same ones demanded by the Senate committee.

While the prosecutor eventually won in District, then Appeals court, the Senate quest bogged down.

In the meantime, President Nixon ordered that House impeachment investigators be given everything in possession of the prosecutor and the tapes — including the fifth one asked by the Senate committee — were turned over.

On April 30, when Nixon published the edited transcripts of 45 conversations, all those wanted by the Senate committee were included.

## Priest Considers Return To Boston

WASHINGTON (AP) — Dr. John McLaughlin, the Jesuit priest on the White House staff who got in a dispute with his superiors over his defense of President Nixon, said Thursday he is considering whether to head a call to return to Boston for "prayer and reflection."

McLaughlin, a deputy special assistant to Nixon, said he had received a letter from the Rev. Richard T. Cleary, provincial of the Jesuit Fathers of New England, calling for an early meeting.

McLaughlin said he hadn't decided yet what he would do but would have further comment on Friday.

"I want to study. I want to reflect," he said only hours after receiving the letter.

Meanwhile, in an interview from Imiti, Italy, the Jesuit superior who gave McLaughlin permission to go to Washington said Thursday that

## \$5.9 Million Spent On LBJ Property

Washington (AP) — The federal government spent approximately \$5.9 million on property owned by the late President Lyndon B. Johnson while he was in office, the House Government Operations Committee reported.

The committee, which disclosed earlier that \$17.1 million has been spent on President Nixon's properties, said most of the funds for the Johnson properties were spent on security facilities.

Included in the \$5.9 million was an estimated \$3,573,000 spent by the Department of Defense and the White House Communications Agency for communications support in connection with the LBJ Ranch in Texas, where the President spent most of his vacations, the committee said in a report.

The \$5.9 million also includes \$770,000 for office space for Johnson in the Federal Office Building in Austin, Tex., approximately 65 miles from the LBJ Ranch. These facilities are now used by the two U.S. senators from Texas.

Also included were \$29,200 for security lighting, guardhouses and trailers, \$3,400 for stone walls and fences, and \$4,300 for strobe and beacon lights to facilitate helicopter landings.

In addition, \$15,000 was spent for installation and repair of Secret Service facilities at Johnson's Haywood Ranch where he occasionally went boating, and \$34,000 for work at a hangar on the LBJ Ranch "to accommodate news conferences, television broadcasts, and the entertainment of foreign dignitaries."

## William Scott Denies He Is The Dumbest

Scott

Washington (UPI) — Sen. William Scott, R-Va., denied Thursday that he is the dumbest member of Congress.

A magazine, New Times, recently published an article based on a poll of congressional aides asking them to rank members of Congress in a series of categories. Scott was noted "the dumbest."

"There is no element of truth anywhere," said Scott during an informal meeting with reporters. "It's all entirely false or it's all twisted."

Scott said he is considering filing a libel suit against the magazine but has not made a decision yet. He said the element of malice, crucial to libel suits, is "hard to prove."

"I don't want to bring a suit that I don't win because somebody might think it (the article) is true if I don't win," said Scott.

## SLA General Buried

CLEVELAND, Ohio (AP) — Donald DeFreeze, the self-proclaimed general field marshal of the Symbionese Liberation Army, was buried Thursday, six days after his death in a police assault on an SLA hideout in Los Angeles.

A spokesman for the funeral home estimated that about 700 persons attended the services in the pink brick chapel and the halls of the home, and about 300 others milled about outside under a hot sun. About 150 persons accompanied the body to Highland Park Cemetery.

DeFreeze, who called himself "Cinque" in the taped "communiques" issued by the captors of Patricia Hearst, was eulogized as a revolutionary by his brother during the brief funeral services at the House of Wills funeral

home in predominantly black East Cleveland.

Delano DeFreeze, 28, said: "My fallen brother died for a nation. That nation might not exist yet, but it will. We have gathered here as a people and we must have leaders to guide us to that nation. My brother was one."

## Omaha Company Gets Import Site

HOUSTON (AP) — Two firms have acquired a 143-acre tract on the Houston Ship Channel as the possible site for a major terminal for importing liquefied petroleum gases.

Texas Eastern Transmission Corp. announced the acquisition Thursday as a joint project with UPG Inc., a subsidiary of Northern Natural Gas Co., Omaha, Neb.

## Vets' Benefit Hike Sent Nixon

WASHINGTON (AP) — The House passed and sent to President Nixon Thursday a bill providing a \$566.9 million increase in benefits for veterans disabled in service and their dependents.

It also passed and sent to the President stop-gap legislation to prevent 285,000 veterans now in school from losing their education benefits while the Senate and House consider an over-all education bill.

Both actions were by unanimous consent.

The compensation total is \$130 million more than Nixon asked in January.

Veterans with a disability rating of 10 to 50 per cent would get a 15 per cent increase in

benefits. Those with a disability rating from 60 to 100 per cent and statutory awards for anatomical losses would get an 18 per cent boost.

Thus, the payment for 10 per cent disability would be raised from \$28 to \$32 a month, and for 100 per cent, the increase would be from \$495 to \$584.

The payment to widows and children of veterans who died of service connected causes would be increased 17 per cent. These now range from \$184 to \$489 monthly depending on the veteran's highest rank in service.

The education bill affects 206,000 post-Korea veterans and 79,000 Vietnam era veterans who are now in school. They are among four million veterans

who served between 1955 and 1966 and whose education benefits are due to expire June 30.

The bill would extend their benefits for 30 days while the House and Senate try to reach a compromise on widely different over-all legislation they passed.

Both Senate and House versions would allow veterans to use their benefits 10 years after leaving service instead of the present eight.

The Senate Veterans Affairs Committee approved a bill Wednesday providing the broadest increases in education benefits since the World War II era. It would increase monthly benefits by 18 per cent, provide tuition grants and a loan program and allow 45 months of schooling instead of 36.

## One Vote Raises Ceiling

WASHINGTON (AP) — The House voted Thursday to raise the national debt ceiling \$19.3 billion to a total of \$495 billion — but only after Speaker Carl Albert cast a tie-breaking vote.

The 191-190 vote sent the bill to the Senate.

Unless it is enacted by June 30, the debt ceiling will drop to \$400 billion, which would be about \$75 billion less than the actual national debt.

The vote followed a debate in which members generally denounced excessive spending, while Democrats accused President Nixon's administration of piling up record deficits and thus forcing big increases in the Treasury's borrowing authority.

Nixon had asked for a \$505 billion ceiling through June 30, 1975. But the House Ways and

Means Committee cut the figure back to \$495 billion and set the expiration date at March 31, assuring another congressional review of administration fiscal policies by that date.

## Nebraskans Split

Washington (AP) — On the 191-190 vote to raise the national debt ceiling, Rep. Dave Martin, R-Neb., voted yes and Reps. Charles Thone and John McCollister, both R-Neb., voted no.

# GOP County Panel OKs Possible Platform Planks

Following a public hearing the Lancaster County Republican Platform Committee Thursday approved possible platform planks to be considered for adoption at the county convention June 6.

Prior to the hearing, Art Knox, chairman of the Lancaster County Republican Party, urged platform committee members to approve "a relevant platform that expresses the views and policies of all Republicans in Lancaster County."

The major focus of the proposed platform is on local issues, but several items have state and national overtones, as well.

- The planks adopted include:
- Support of partisan city and legislative election;
- Opposition to direct taxpayer financing of election campaigns at any level of government;
- Support of a market, or competitive, enterprise system;
- Support of establishing a platform implementation committee that would monitor actions of local government officials;

ask for progress reports to the central committee and generally rescue the county party platform from the "forgotten documents" file.

—Support of further study of possible areas of merger and/or cooperation in the operation of city and county government.

—Support of studies undertaken by the County-City Implementation Commission, a kind of merger commission made up of the heads of major city and county governing bodies and a private citizen;

—Support of higher salaries for state legislators, primarily because of increased legislative workload;

—Support of the idea that revenue sharing funds should be used primarily for experimental and innovative programs that merit financing. This plank also supports the plan to appropriate funds on a diminishing basis so that the organization will have to demonstrate sooner that the money has been used effectively;

—Support for a 10% rental property tax credit for low-

income renters 65 years of age and older. (This issue was introduced during the 1974 session of the state Legislature as LB618, but was "indefinitely postponed");

—Support for all state and local Republican candidates in the November election;

—Special support for Paul Douglas, candidate for state attorney general;

—Support and praise for GOP County Chairman Art Knox, precinct leaders and the executive committee.

Among the proposed planks rejected by the platform committee were:

—A position, either pro or con, on the appointment rather than election of county department heads;

—Support for housing the Wounded Knee visitors in barracks at Arnold Heights as long as the only expense would be the initial cost of hooking up utilities;

—Support for a single state tax on all wages, salaries and corporate profits, making this the only source of state revenue except for miscellaneous professional licensing fees;

—Taking a position on abortion and adoption;

—Support for a study as to whether directors of the State Commission on Aging be elected rather than appointed.

Robert Sittig, chairman of the platform committee, said he planned to mail letters to everyone who had submitted plank proposals that were turned down by the committee.

Sittig said those whose planks were defeated "will have another day in court" at the convention June 6.

Others of the 13-member platform committee present at Thursday's meeting include Arlyss Brown, Dan Burleigh, Muffet Hacker, Ione Smith, Patricia Smith and Earl Witthoff.

## Labor Dept. Revamps Consumer Price Index

Washington (UPI) — The Labor Department said Thursday it will begin to keep two sets of books on consumer prices.

Bureau of Labor Statistics have been eager for some time to work out a new barometer for measuring the cost of living. But the AFL-CIO has warned that such a step could lead to "chaos and confusion" with "devastating effects on workers."

Julius Shiskin, commissioner of labor statistics, said in a statement that his bureau "is now convinced that a single index cannot fully meet the diverse needs of users in business, labor and government."

Shiskin, therefore, has proposed the continued use of the present Consumer Price Index (CPI), which reflects, according to law, living costs for "urban wage earners and

clerical workers."

But he hopes to add a "broader consumer price index for urban households."

Shiskin said the older CPI will be "updated," which may still raise questions in labor.

The regular CPI covers about 45% of the population. The bureau wants the new one to cover 80% to reflect "a comprehensive measure of consumer price trends for the entire economy."

Nathaniel Goldfinger, director of the AFL-CIO research department, has warned that a change in the CPI "will have devastating effects. It would create confusion and chaos."

"For example, more than five million working people now have their wages tied directly to changes in the consumer price index under the terms of collective bargaining contracts with employers," he said.

## Dick Campbell says . . . Apply Heritage House Fungicide Now!

Right now fungus is present in most lawns and is just waiting for some warm humid weather to rampage through that beautiful green carpet.

Look closely at the grass blades. Is there an undertone of yellow or dead blades when you mow? Upon close examination, are there black spots or spores on the blades? If so, then you have fungus. Right now it is just starting, but with a little warm weather — your lawn will fade out and can be totally killed. So apply a fungicide, protect your lawn, and save yourself a lot of work later.

## Forget Special Session

Sen. John DeCamp of Neligh has suggested that the Legislature meet in special session yet this year to cancel funding of the new \$20 million state office building project and transfer cigaret tax revenue now used for that purpose to a fund which would finance the creation of a college of veterinary medicine in Nebraska.

We think that abolishing the state office building and creating a veterinary medicine school all in one hastily-called special session would be the height of folly and we think most of DeCamp's colleagues think so, too.

The Legislature this last session determined — as did the Legislature some ten years ago — that the need exists for an office building to house various state agencies in a centralized location near the State Capitol. Consolidating state offices in one building may, as DeCamp suggests, hurt some Lincoln landlords temporarily. But the new structure will have, overall, a healthy effect on Lincoln business life and will provide a convenience to Nebraskans doing business with the state agencies which will be located there. If DeCamp believes a new office building will hurt Lincoln, he has little faith in the capital's future.

We don't think the state office building should be abolished for the sole reason that a need exists for a veterinary medicine

facility. We agree with the senator that a need does exist and he is to be commended for again bringing it to the public's attention. But creating a college of veterinary medicine in Nebraska, while an exciting prospect, to borrow a phrase, is a complex issue and the project too expensive over the long run to make a snap judgment for or against a vet school in the few short days of a special session.

It has been estimated that construction costs of a college of veterinary medicine alone — minus equipment — would surpass \$55 million. A commitment starting with that large an amount of money is something that will take more than hasty deliberation. Besides cost, other questions will have to be answered: Where would it be located? Would it be a cooperative effort with other states? What incentives could be offered to keep graduates in the rural areas and doctoring big animals?

There appears to be a need for a school of veterinary medicine in Nebraska. A large pool of potential students exists. Present cooperative arrangements under which Nebraska students are educated at vet schools in other states appear to be in jeopardy. It may be that the Nebraska Legislature will want to take up the issue again. But not in an election year special session.

## The Coverup Continues

President Nixon promised the special prosecutor independence and the House Judiciary Committee full cooperation. Neither promise has been fulfilled.

In frustrating Special Prosecutor Jaworski's efforts to obtain certain pieces of evidence and in rejecting the Judiciary Committee's latest subpoena and promising to do likewise on any future demands for evidence, the President continues to drag out Watergate. Judiciary member George Danielson, D-Cal., hit the nail squarely on the head when he said the President is "telling us in flat terms that the coverup continues."

Few people still believe that Nixon "told all" or gave up all the evidence necessary to fully explain his role in the 1972 scandals when he released the sum-

marized transcripts of recorded conversations last month. The Republicans on the Judiciary panel certainly don't believe it. And Vice President Ford, again at odds with the White House, is asking that all the evidence the committee wants be released. Ford believes that Nixon is innocent of wrongdoing, but he thinks releasing all the evidence is the only way to get the truth out. Full disclosure is what the vast majority of Americans want today.

Nobody is believing that bunk about protecting the institution of the presidency by hiding evidence.

The President apparently is intent on carrying out this strategy of suppression to the end. It should be no surprise to him, then, that the condition of his presidency is extremely grave so far as congressional and public confidence are concerned.

TOM WICKER

## Swedish Computers Click

STOCKHOLM — "If you gather much unimportant information together, it can become very important," says Jan Freese, the staff director of Sweden's new Data Inspection Board. The fact that a certain woman is a widow may mean little to someone who does not know her. If it also is known that she has been left a large income, that she subscribes to numerous romance magazines, and occasionally drinks too much, she may quickly become the target of unscrupulous approaches.

The combination of just such "unimportant" personal information and its unlimited collation and storage in computers is especially easy in Sweden, where government agencies collect an immense amount of data for welfare state purpose, and tradition backed by law makes this information generally available to the public.

The board's first task, after the law becomes effective July 1, will be to register, inspect and license existing "personal registers" — any index, list or other notes stored in a computer and containing personal data about identifiable people. There may be 50,000 or more such registers now in operation in this highly organized and technological country, but most are relatively small and limited

in scope — a small businessman's payroll, for example.

After July 1, anyone wanting to establish a new personal register will have to be licensed by the data board. Either for existing or for new registers, the board will be entitled to issue strong directives as to how the register may be used, what data may be collected, who can have access to it, whether persons registered in the file must be informed, and how data must be stored, weeded out and safeguarded.

Some of the other provisions of the Swedish data act are as follows:

- Only government agencies so empowered by law can collect data on criminal records, psychiatric records, diseases or alcoholism, or reception of social welfare benefits.
- Churches and political parties can keep lists of their members: otherwise, religious and political affiliations may not be listed in any register.
- Individuals may inspect their own files in any register on demand once a year, force corrections of inaccuracies or incomplete data and collect money damages for any injury done them by the circulation of inac-

curate or incomplete information.

— The data board will designate a "responsible keeper" for any personal register, and the keeper will be liable to criminal charges if he violates the rules laid down for his register — for example, if he supplies information to anyone he has reason to suspect will use it illegally.

— If a register is to be closed, the data board will decide what to do with the information it contains.

— With its right of inspection, the data board also can act as a sort of ombudsman for complaining citizens, and has great power to order redress of legitimate grievances and complaints.

All this applies with force unusual in Swedish law to privately owned personal registers — the massive ones, for instance, now operated by direct mail and advertising firms.

The board can inspect government registers and make recommendations: it must be "consulted" before new government registers are established. But it cannot direct other government agencies and force compliance. Given the general civility of Swedish institutions, however, and parliament's declared interest in controlling excesses in personal data processing, Freese and other officials believe the data board will have great impact on government-register operations.

In one important matter — the police files — this ambiguity may not be so important as it would be in the United States. Sweden has only a national police force — there are no province or city forces — so the safeguarding of shared police data is not an issue as it is, say, when the F.B.I. provides a criminal record to a city police force that has inadequate control over information in its files.

Even so, Bertil Wennergren, the parliamentary ombudsman who will oversee the working of the data board, fears that its power to affect government data practices — particularly those of the national police — may not be sufficient. But at least Sweden is making a start in a field without real precedent. The United States and most other computer countries are just beginning to study the problem.

(C) New York Times Service

"Okay, You Go Out And Speak For Me Next. Then The Maid — Where's King Timahoe?"

## A Question Of Priorities . . .

JACK ANDERSON

## Lady Bird's Plan Winged

WASHINGTON — Lady Bird Johnson's dream of scenic highways, without unsightly billboards to blot the view, has been sabotaged by one of her best friends.

He is hard-working Rep. Jim Wright, D-Tex., a power on the House Public Works Committee, who has been running interference in the corridors of Congress for the billboard lobby.

The resulting scenic ruin increasingly is spoiling the majesty of the countryside for vacationers.

Here's what has been going on behind the scenes:

— A law was pushed through Congress in 1965 banning billboards along major federal highways. Yet a cabal of congressmen, led by Wright, brought pressure on the Transportation Department not to enforce the law. More billboards now clutter the roadside, therefore, than in 1965. And Wright has introduced a measure that would allow still another 400,000 new billboards.

— Wright is trying to give states the right to zone rural land along the highways as "commercial." This would permit the billboard builders to get around the federal law. When a federal judge refused to permit the states to circumvent the highway beautification act, Wright scribbled his views on a napkin at breakfast and passed it across the table to federal highway counsel David Wells. Ever since, federal enforcers have paid more attention to the napkin than the law. Wright says Wells still has the napkin.

— Ironically, Wright is chairman of the Highway Beautification Commission. At least one member, Marion Brown, has complained to him that the commission has been "a waste of time" and the beautification law a "costly, meaningless fraud." The members who have tried to fight against "visual pollution," she says, have been given "discourteous and high-handed" treatment.

— Congress has put the emphasis on paying off the billboard lobby rather than enforcing the billboard ban. Congressional appropriations have gone not to enforce the law, but to compensate companies, often at exorbitant rates, to remove billboards that never should have been

put up in the first place.

— Congress has also blinked at the billboard lobby's wild ways of circumventing the law. One technique, for example, is to purchase a three-foot-wide strip of land reaching from a business site thousands of feet to the highway. At the end of this strip, right by the highway, the business erects a billboard, claiming it is on the company's "premises."

— Former Transportation Secretary John Volpe started to enforce the billboard ban until he got a stern letter in 1971 from Reps. Wright, John Kluczynski, D-Ill., William Harsha, R-Ohio, and others, backed by Speaker Carl Albert. The letter urged Volpe to "delay . . . the imposition of the 10% penalty for non-compliance." This would have cut off 10% of the highway funds to offending states.

— Wright also wrote a "Dear Frank" letter to Federal Highway Administrator Francis Turner, insisting that states should be permitted to zone roadsides any way they pleased. This would have been an invitation for the billboard lobby to bring pressure on the states to open up the highways to a nightmare of billboards.

— Although federal billboard enforcers insist they "aren't throwing in the sponge at all," their public words have a hollow ring. Federal highway executive director Lester Lamm, for instance, promised Congress he would "be completely responsive" to Wright and his allies on several crucial issues.

For his part, Wright has sought to give the impression that the billboard lobby is made up mainly of small businessmen. The truth is that its leading members are the Roadside Business Association, representing Holiday Inns and others; the National Electric Sign Association, whose vice president is a pal of Wright; the National Advertising Company, owned by the giant 3M Conglomerate; and the coast-to-coast Outdoor Advertising Association.

FOOTNOTE: Wright, in a long, earnest talk, denied he is the "tool of the billboard lobby." In fairness to him, we believe his sympathy for billboards comes from his days as the executive of a small advertising firm, not from political contributions. Spokesmen for the billboard lobby insist their signs are needed to stimulate commerce.

JAMES RESTON

## Kissinger Tries Spreading Himself Too Thin

"But strong as Kissinger is, physically and mentally, he cannot deal effectively with all this by himself, without organizing his department, unless he can invent the 48-hour day. The way things are going, he is trying to do everything . . ."

Meanwhile, the operation of the government here depends on members of the cabinet and the civil service. And the reorganization and revival of confidence at the Department of State depends on Kissinger, who took over there last September 22.

Since then, he has been out of the country three days in October, eleven in November, 14 in December, 10 in January, 14 in February, 5 in March, and forgetting time out for a honeymoon in Mexico, he has been away since late April and all of May, and will probably have to spend most of June in Europe and Moscow, preparing for the President's visit to the Soviet Union in the last week of next month.

This is the life of a roving presidential envoy rather than of a secretary of state. Kissinger makes John Foster Dulles, our last State Department wanderer, look like a stuck-in-the-mud. And it is a practical problem for three reasons.

Kissinger hasn't had time to organize the State Department to deal with all these critical world-wide developments while he's away in the Middle East: he delegates authority grudgingly to acting Secretary of State Rush; and he's not available to testify in Congress on vital legislation such as the defense ap-

propriations, and the foreign assistance bills.

This does not mean that he's out of touch on his shuttle plane between Damascus and Tel Aviv. The art of communication has advanced since Dulles was flying around the world. He gets between five and 10 messages from the State Department every day — and between 15 and 20 from other departments — asking what should we say about the Indian nuclear explosion, or how should we react to the change of government in Portugal, France, and Germany? And he can get back from his flying communications center within hours, but this is a substitute and not an answer.

It leaves him little time for reflection and definition on the really major questions of nuclear arms control in Moscow next month.

It is certainly not the calm, thoughtful, orderly process of policy-making he insisted he would bring to the Department of State when he was appointed. The October war in the Middle East blew him off course.

He won the trust of Sadat and Feisal and Mrs. Meir and put his whole mind to

## Today's Mail

Brevity in letters is requested but length in itself will have no bearing on publication. Writers are advised that needless details and repetitious matter will be edited out of letters. Too frequent contributions from one person on the same subject may be rejected. All letters must be accompanied by the writer's true name but may be submitted for publication under a pen name or initials. However, letters will be printed under a pen name or initials at the editor's discretion.

### Time For Accounting

Lincoln, Neb.

A raise of 31.5% for United Fund agencies for 1975? I can't believe it; I don't understand it; and there is no way that the majority of employers in Lincoln can increase their own costs to the consumer or increase their employees' wages to cover a request like this!

I thought the original idea of the Community Chest was to help those who couldn't help themselves. If every penny of this raise were going directly to the poor, I'd have no objection to going along with it, BUT I would recommend that somebody take a good look at the costs of those agencies which seem to be servicing middle-class people who can well afford to pay the full cost of the agencies' services.

Somewhere along the line, we seem to have lost sight of the original purpose of the Community Chest and I suspect that some of the agencies' administrative costs have also gotten completely out of line in proportion to the number of poor people they're actually serving.

I'm not referring to all agencies. Some do a tremendous job for the poor and the city, but I think the time has come for all agencies to stand up and prove what help they're giving to the poor.

DON NORTH

☆☆☆

### Helping Each Other

Ansley, Neb.

We have had much alarm over reported tornadoes in this territory. We have had them on all four sides of our little town.

I think of the Second Commandment, "Love thy neighbor as thyself." This means to help him and to be helpful to all fellow men. We should all ask our neighbors to ride downtown instead of passing them by and letting them walk. Or we might offer to bring the mail to an older person.

Thoughtlessness is a sin, in my book. Selfishness alone could be the sin. Let us all try to be kind and helpful to one another.

BERTHA M. BURDICK

☆☆☆

### Use Of Profanity

Lincoln, Neb.

What has happened to Americans' respect for God and themselves? Even our so-called educated people can't talk or sing on the radio without using His name in vain, breaking one of the Ten Commandments. I've always thought that people who don't have much of a vocabulary and can't think fast enough to find words they intend to say put in swear words instead.

Some might consider themselves talented, but I would call them just ignorant or vulgar when they use such language.

One currently popular song even has the expression, "Go to hell." No wonder small children pick up swear words, not even knowing what they mean.

The radio, TV and newspapers used to prohibit such talk, but not anymore.

A BELIEVER

☆☆☆

### A Real Humanitarian

Lincoln, Neb.

The person or persons who dumped the puppies on the road near Walton are heartless. Why not dispose of unwanted pups in a humane way, not leave them to starve?

Any man or woman who does not love an animal is not fit to be a parent. It's like leaving a tiny baby on someone else's doorstep. The Bible says, "Inasmuch as ye have done it unto the least of them, ye have done it unto Me."

There are many children who would like a puppy as a playmate to while away lonely hours. A boy, a dog and a pony are a very happy threesome on a farm. I know because we had them. Walton was our old stomping ground; about a mile and a half east of Walton on the A Street road on a farm, and here we brought up a family of two girls and one boy.

Thanks to Patricia Crawford of Bennet for being a real humanitarian.

ANNA SCHOENLEBER

☆☆☆

getting a cease-fire in that part of the world, but meanwhile other potential fires are breaking out.

☆☆☆

The strength of the Kissinger system in the Middle East is its weakness elsewhere. Where he concentrates — whether on Chou En Lai in China, on Brezhnev in the Soviet Union, on Sadat or Faisal, or President Hafez Al-Assad of Syria, on the political leaders in Israel or the political leaders here on Capitol Hill — he has a remarkable gift of persuasion. But strong as he is, physically and mentally, he cannot deal effectively with all this by himself, without organizing his department, unless he can invent the 48-hour day. The way things are going, he is trying to do everything: set policy, advise the President as head of the National Security Council in the White House, organize and preside over the State Department, mediate the struggle in the Middle East, inform the press in his own name or as a "senior official," be loyal to Nixon on Watergate, disloyal to himself.

This is quite an assignment, but from here, it looks a little presumptuous, if not a little goofy, and at some point he is probably going to have to decide whether he is a secretary of state or a diplomat-negotiator - spokesman - scholar - philosopher, and politician-apologist on Capitol Hill.

He can't go on doing all these things together. Maybe his new wife will have to tell him. Somebody is going to have to get him off that merry-go-round and bring him home to deal with the whole world as secretary of state.

# Rabbi Seeks To Overturn 'Guest Statute'

By BOB GUENTHER  
Star Staff Writer

Parents at one time or another all have admonished the young man who has come to take their daughter out on a date to "drive carefully."

But what if he retorted, "Legally, I don't have to?"

The parents understandably would be irate, but the young man would be correct.

Under Nebraska's "Guest Statute," the young man could not be held liable for injuries to his date resulting from an accident involving simple negligence. Damages could only be assessed if the young man was intoxicated, was "grossly negligent" or charged her for the ride.

**Still On The Books**

Although courts in a number of states, including neighboring Iowa and Kansas, have declared similar versions unconstitutional, Nebraska's Guest Statute is still on the books.

However, the law is being challenged on constitutional grounds by an attorney for an Omaha rabbi.

A brief was filed Thursday with the Nebraska Supreme Court by the attorney for Rabbi Zev Zolman who was injured when a car driven by a co-worker, Rabbi Mendel Landsman, veered off an Omaha street and struck a telephone pole.

Testimony from the lower court proceedings indicated Landsman "blacked out" at the wheel. Earlier he had taken medication for hay fever. The hospital diagnosed Landsman as having suffered "a possible seizure disorder, cause unknown."

**Case Dismissed**

Omaha District Judge James A. Buckley dismissed the case saying the evidence was insufficient to prove "gross negligence." The court maintained he was Landsman's guest, even though Zolman gave Landsman \$2 to cover the cost of gasoline.

Zolman's attorney said the Guest Statute is unconstitutional, because it denies recovery for ordinary negligence, denies equal protection to all persons, violates due process requirements and discriminates between citizens.

"The question here is not whether our Guest Statute discriminates against a guest or denies a guest equal protection of the laws. It clearly does," the attorney said.

"The question is whether such discrimination is constitutional-ly justified. The quality of the argument does not justify the discrimination."

**Ruled On In 1935**

The Nebraska Supreme Court, he noted, once before ruled on the Guest Statute in 1935 and said it was constitutional. According to the attorney, the law was first enacted to protect the hospitality of the host and to prevent collusive lawsuits.

Since the advent of widespread liability insurance, the reasons for enacting the law no longer exist, he said.

"The court must take judicial notice that the only entity protected is the insurance company," he said.

"The question should be met head-on by the Supreme Court... The state of Nebraska should follow California and Kansas in the judicial nullification of auto guest statutes which deny equal protection to gratuitous guests."

## Youth Arrested For Attempt To Abduct Woman

An 18-year-old Lincoln youth was jailed Thursday evening in connection with the attempted abduction of a Lincoln woman late Thursday morning.

Police said the woman told them the youth stopped her in the vicinity of 18th and K. He asked her how to find an address, then pulled into an alley and got out of the vehicle.

Police said she told them he had a gun and attempted to make her go with him. She fled and called police from a nearby residence.

The youth was located near 40th and X after police received a report from a citizen that a pickup matching the description of the one involved in the incident had been sighted.

## Electric Frying Pans May Shock Users

Washington (UPI) — The Consumer Product Safety Commission warned the owners of 4 million electric frying pans Thursday that some of them may present a shock hazard and should not be used.

Involved in the warning are frying pans made by National Presto Industries, Inc. and distributed under the Presto brand as well as under the Sears and Roebuck brand. The pans were all produced prior to September, 1973, after which the company changed its manufacturing practice.

The commission, in a joint announcement with Presto, said the shock problem is confined to pans that are not used regularly or have not been used at all.

But the announcement warned all consumers having such pans to discontinue their use and to contact — in the case of the Presto brand — National Presto Industries, Inc., Service Department, Box 83, Eau Claire, Wis., 54701, providing the serial and model numbers of the pan. In the case of the Sears pan, consumers were urged to contact their nearest Sears store.

Persons with such pans should contact the companies regardless of the amount of use the pans have received, the commission said. It said both Sears and Presto will repair or replace them without cost if necessary.

Pans made prior to September, 1973, can be identified by a serial number on the bottom of the electrical connection. The commission said the number appears below the word "series" and the Presto pans involved can be identified if the last two digits in the serial number are "72" or less, or where the last two digits are

## Scholarship Won

Mary Katherine Danakay, a senior at Pius X High School and the daughter of Mr. and Mrs. James Danakay of Lincoln, has been awarded a Presidents Scholarship to Nebraska Wesleyan University.

## Appeals Will Be Heard On Property Valuations

Lancaster County commissioners, sitting as a board of equalization, are expected to begin making decisions Friday on 15 real and one personal property valuation appeals heard by them the last two days.

The only personal property valuation appeal was filed by the Lincoln Telephone and Telegraph Co. It alleges that its \$15,733,722 valuation on personal property should be reduced to \$11,575,561.

The telephone firm contends that real estate in the county is only being assessed at 25 75% of actual value while its personal property is being assessed at the statutory 35% level of actual value.

Seven of the appeals filed by the May 1 deadline this year are on properties for which appeals to the Lancaster District Court are pending from previous years.

## These are the Pros at Williams Garden Center

They warn you that you are faced with some lawn problems—let them and HERITAGE HOUSE help you.

## POSTCARD

by

San Francisco — Up with the twittering birds and made a little coffee while the golden sun came over the hill to Snug Harbor.

"Have you found real happiness?" a lady reader writes to me. She has. Will share it with me. (Sounds like a kind of Yoga. The last Yoga I tried twisted my neck and I had to wear a dog collar.)

Not sure about happiness. Contentment maybe. (Contentment is one hand on the parachute ring. Be prepared.)

Said Abdu-Er-Rahman III, the dark and thoughtful Moor, ruler of Spain:

"I have now reigned about fifty years in victory or peace, beloved by my subjects, dreaded by my enemies and respected by my allies. Riches and honors, power and pleasure, have waited on my call, nor does any earthly blessing appear to have been wanting to my felicity.

"In this situation I have diligently numbered the days of pure and genuine happiness which have fallen to my lot; they amount to 14."

☆☆☆

A happy chap used to correspond with me. He wrote: "The doctors up here thought my brains were not good enough. They took them out and filled my head with buttermilk."

He was a lively writer: "The other day I passed a cat. It turned and gave me a significant look."

He said he was perfectly happy. He had no telephone and no taxes. They gave him plenty of writing paper and stamps.

By and by they discharged him. And he reentered the worrisome world.

☆☆☆

Contentment is a cup of coffee while the sun comes up over the bay. It doesn't last long.

"You owe me a quarter," said the girl moppet.

I said: "Did you make your bed yet? That was part of the deal."

She said: "I'll make it later."

I said: "No credit. No checks cashed. What do you think this is? Diners Club?"

☆☆☆

Recipe for happiness: In times of emotion, Sam Houston let his beard grow. His second wife urged him to join the church. Sam couldn't take religion neat like whiskey.

He put his razor away. Let his beard grow until she stopped nattering.

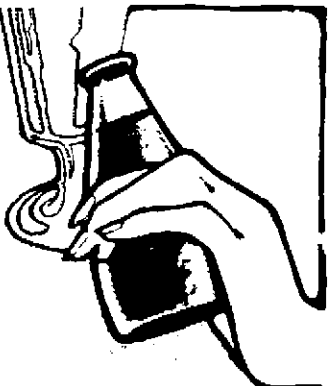

"You can take that collar off now," said the medic. "I think we've got the condition stabilized."

That was a happy day! I did Yoga exercises and got a neck like a pretzel. When I turned my head, you could hear the neck crack like running a stick along a picket fence.

The children were unhappy. They said: "We promised our friends they could see you in a dog collar."

I said: "Don't you want your father to be well? Fetch me the cooking sherry. I had a close call."

# State's 1st Bull Stud Farm Introduced To The Public

By DOMINICK COSTELLO  
Farm Editor

Murdock — Nebraska's first bull stud farm was introduced to the public Thursday, complete with a marching band and a political speech by Gov. J. James Exon.

Cattle Reproduction, Inc., which has its bulls on the Dutch Rickli farm near Murdock, also owns a laboratory and semen bank in Omaha, where the company is attempting to separate the semen into two groups that will either produce bull calves or heifer calves on demand by specific sex.

Dr. B. C. Bhattacharya, a native of India who has become an American citizen, discovered some 19 years ago that the female portion of the semen of cattle carries a greater density than the

male part.

He has since improved his method of separating the semen and is now testing his ability to produce female calves on demand in herds of cattle in Montana, Germany and England.

Bhattacharya makes no claim for his process as yet, saying, "After 19 years of research, I am in no hurry. More research is necessary to accomplish better separation of the biological isotopes of male and female spermatozoa."

Bhattacharya said people doubted nuclear fission at first, too, so he's not surprised that many cattlemen have expressed doubts about the future of the process.

Gov. Exon in a brief address described the process as "a hope of a way to produce better cattle to feed a hungry world."

## Speakers Set Attack On Apathy

A group of Lincolniters, saying they are "appalled by the current world situation and the apathy toward it," have formed a local speakers bureau called the Old Curmudgeons.

In a mailing to local organizations, the group stressed the controversial nature of their views on current political and cultural trends.

The speakers bureau intends to emphasize positive rather than negative solutions to current problems, according to spokesman Steve Enersen.

"We'll try to go beyond simply analyzing a problem and identifying big government or some other institution as the villain," Enersen said.

"Today's challenges deserve more far-sighted solutions than merely waving the flag or soaking the taxpayer."

## Review Of Evidence In A&P Case Planned

Omaha (AP) — A deputy Douglas County attorney said Thursday he wants to review the State Agriculture Department's evidence before deciding on a department recommendation to file criminal charges against an Omaha supermarket.

The department recommended charges against the A&P Market at 7100 Ames Ave. for alleged violation of the state weights and measures law.

Deputy County Attorney Noel J. Phetteplace went to Lincoln

today to view evidence from the store.

State Agriculture Director Glenn Kreuscher said Wednesday he had recommended that the Douglas County attorney's

office file charges after he saw results of inspections by City of Omaha and state officials.

Jack Hegwood, A&P district supervisor, said he will consider filing libel charges against the

Agriculture Department for its recommendation.

Hegwood said any perishable item will shrink overnight in weight, but that it rarely affects the retail value of the item. He said "I doubt if they could shrink more than a penny's worth."

## Auto Gas Use Rule Threatened

(c) Washington Star-News Washington — The country's new energy chief says he is calling on the automobile industry to begin manufacturing automobiles that get more miles to the gallon.

John Sawhill said Thursday the request to manufacturers initially will be on a voluntary

basis. But, he said, "if it doesn't work we would have to go to compulsory standards."

## Section On Energy Conservation Urged For Comprehensive Plan

The Goals and Policies Committee might be called back into action under a suggestion made Thursday by the consultants updating the Comprehensive Plan.

Barton-Aschman vice president Bob Teska suggested to the City County Planning Commis-

sion that the committee add a new section on energy conservation.

Formulation of a county-wide energy policy would provide guidelines for transportation planning and urban development recommendations.

For instance, Teska said, if one policy calls for the reduction of unnecessary consumption of gasoline, that goal can be achieved in two ways. The committee could call for a stepped up mass transit system or call for a greater compactness of land use patterns.

### McBride Chosen

Jack McBride, executive director of the State University of Nebraska, has been appointed to one of four Corporation for Public Broadcasting task forces. The units will recommend a new role for public broadcasting in formal education. McBride will be on the 13-member post secondary formal education force.

Teska also reported that Barton-Aschman will begin next week to prepare procedures for evaluating alternative plans.

The planning commissioners will be supervising the consultant's efforts to update the county-city plan.

The group decided to meet on the fourth Thursday of each month in the Mayor's Conference Room at the County-City Building.

## Inmate, 37, Handed 20-Year Term

Fremont (AP) — A 37-year-old Nebraska Penal Complex inmate entered guilty pleas in Dodge County District Court Thursday to a charge of shooting with intent to kill, wound or maim.

Jerry Hansen was sentenced to 20 years in the Penal Complex. The sentence will be served concurrently with the first of two life terms Hansen is already serving. The sentence

was handed down by District Judge Robert Flory.

Hansen was charged in connection with the shooting of his wife Sandra last June 14 in Fremont. He was in Fremont to a dress an Alcoholics Anonymous group when he

escaped from a prison counselor for about 15 minutes. He then allegedly went to his wife's home and shot her several times.

## Highway Plan Gets FHA OK

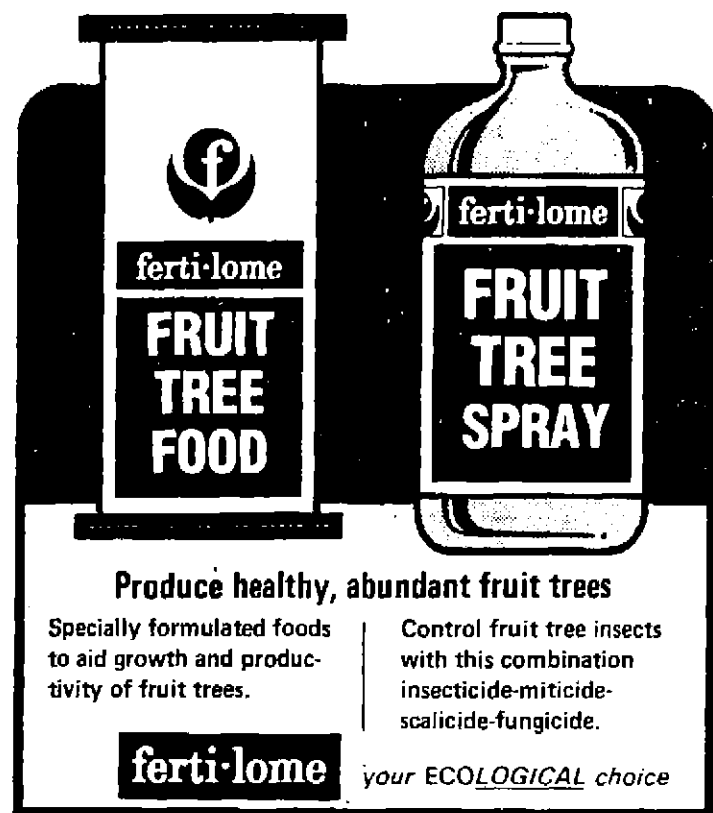

The location and design study of a construction project on Highway 77 south of Lincoln has received the approval of the Federal Highway Administration, the Nebraska Department of Roads said Wednesday.

The proposed project begins at the Union Pacific and Burlington Northern railroad viaduct and runs northeast about 3,000 feet. The new pavement, a 24-foot wide section, will be located west of the present two-lane facility.

A location and design study report is available for inspection at the Department of Roads district office, 302 Superior.

At the time of the incident Hansen was serving consecutive life sentences for second degree murder in connection with the shooting of his wife's parents in Cedar Bluffs.

Hansen had been a trustee since 1970 and according to Prison Warden Charles Wolff had made many trips outside the prison to speak to groups.

Court Orders Resentencing Of Man Convicted Of Manslaughter

United Press International  
The State Supreme Court Thursday ordered the Dakota County District Court to resentence a man who pleaded guilty to manslaughter and was sentenced to the maximum 10 years.  
The move, however, drew a strong dissent from Judge John Newton in the 6-1 decision.

"It is obviously a case of first degree murder, yet the defendant was permitted to escape with a plea of guilty to manslaughter and received a sentence of 10 years," Newton said.  
In the case, Charles Jackson

was originally charged with first degree murder in the death of Leonard Shearer.  
Shearer, according to the evidence, was hit over the head with a bottle and then run over by a car.  
The first degree murder charge was dropped and replaced with a second degree

murder charge in return for a promise by Jackson to turn state's witness in the trial against another person charged in connection with the killing.  
Jackson pleaded guilty to second degree murder and testified at the other trial. The second person, however, was acquitted and the charge, after further bargaining, was reduced to manslaughter and Jackson pleaded guilty.

The court also reversed a decision of the Red Willow County District Court, which granted a \$2,000 judgment against a tavern owner, now dead, in McCook for the accidental shooting of one of his customers in 1972.

The damage suit was filed against Leonard Zuck by William Welsh, who was shot in the thigh after a scuffle with one Chester Rima.

In other decisions the high court

—Reversed and remanded to the Howard County District Court a dispute between Dean R. Armstrong and Richard C. Armstrong over acquisition of controlling interest in the Citizens National Bank in St. Paul.

—Rejected a contention by Robert Franklin Spidell that his

Otoe County District Court forgery conviction should be dropped because he wasn't granted a speedy trial.  
—Agreed with the Douglas County District Court's decision that Bishop's Cafeteria in Omaha did not serve unwholesome food to Frank Renne.  
—Approved the Merrill County District Court's decision that river accretion land on the North Platte River flood plain in the Chimney Rock area belong to Lee Schirck rather than Peter Schmunk.  
—Upheld the Douglas County District Court's judgment in favor of the Metropolitan Utilities District in a class action suit brought by James Lynch in a dispute over proceeds from the sale of gas plant property.  
—Affirmed the Madison County District Court's decision in favor of Christiansen Construction Co. in a lien dispute filed against A. J. Hiller Enterprises Inc.

## Baby At Heart?

DEAR ABBY: I am 28, have been married for 12 years, and have four children. (The youngest is seven.)  
I breast-fed all my children. At the same time I also breast-fed my husband. He enjoyed it, and I didn't mind as I have had plenty of milk even when I wasn't pregnant. I have long quit breast-feeding my youngest child, but my husband wants it nearly every day.

He is 44 and recently retired from the military. What worries me is this never-ending supply of milk I seem to have. I had a hysterectomy last year, and even that didn't dry me up. It doesn't bother me physically, but I keep wondering if I am normal? My husband thinks it's super. The older I get the more I worry about it, because I've never heard of this before. Have you?  
NAME WITHHELD BY REQUEST

DEAR NAME: Yes. All animals, including humans, secrete milk as long as the mammary glands (breasts) receive stimulation from sucking and emptying. Don't worry, you are normal. The abnormal one could be your husband, but as long as he's happy and you don't mind accommodating him, there's no problem. His hunger is probably more erotic than caloric.

(c) Chicago Tribune—New York News Synd., Inc.

## Footlights and Canvas

The following cultural events will take place in the Lincoln-Omaha area during the week, May 24-31.

### Visual Arts

Lincoln Artists' Guild, juried art show, through Saturday, Miller and Paine Auditorium (downtown) during regular store hours.

Sheldon Memorial Art Gallery, exhibit, "Geometric Abstraction," "Ceramics" by Dee Schaad, in the Art Shop.

Elks Club, one-woman show of acrylics and oils, by Waunita Ray.

### Music

Pershing Auditorium, Worth-Crow Organist Duo, unique combination of classical and touring theatre organs, 8 p.m. Friday, May 24.

### Mrs. Don Little Is New President

Mrs. Don Little was installed as president of Zeta Mu chapter of Delta Omicron, a music honorary, Tuesday.

Other new officers are Mrs. Harry Bell, first vice president; Miss Marsha Bell, recording secretary; Mrs. Tom Smith, corresponding secretary and Mrs. Charles Beardslee, treasurer. Jean Sanders, retiring president was installation officer.

Joslyn Art Museum, Omaha, "The Art Synthesizer," program of electronic music, with Chip Davis, member of the Omaha Symphony Orchestra, 3:30 p.m. Sunday.

### Drama

Mellerdrammers, "No, No, A Million Times No!" or "Only A Farmer's Daughter," Wednesday through Saturday, 9 p.m., Gas Light Theater.

### Architect Haunted By 'No Women' Idea

New York — Elmer Botsai, a San Francisco architect, made what he considered a rather innocent remark to a newspaper reporter three years ago.

"I would prefer not to hire a woman to work in my office," he said.

Now Botsai is running for vice president of the American Institute of Architects and his candidacy may be in some trouble because of the opposition of women architects, who make up only 1% of the institute's membership of 24,000 but who are rapidly growing in influence in a profession which has traditionally been even more of a male enclave than law or medicine or engineering.

# Scouts Adopt Grandparents

By NANCY HICKS  
Star Women's Editor

A small, silky hand encircled the worn, veined arm. Mrs. Grace Ware was having a little talk with one of the 32 girls who named her their "adopted grandmother" several months ago.

A few feet away, adopted Grandfather Harry Sachtleben was playing a hand game with three of his new "granddaughters," and Lee Winterhalter was describing the first visit from the girls.

"Well, you see I didn't have any family around here. Four of the girls came in to ask me what kind of things I liked to do when I was their age."

These three senior citizens, residents of Lakeview Rest Home in Firth, are among the five adopted grandparents of the Girl Scouts in Junior Troop 17 and Cadette Troop 66.

The adoptions began last summer when the girls decided to do something a little extra for individuals old enough to be their grandparents, or even great grandparents.

They began adopting Lakeview residents as grandmas and grandpas, making special visits to them, sending cards and special Christmas gifts, including them in troop outings and ceremonies and giving them that unself-conscious loving that only children can give.

Then the whole project began to mushroom.

In the fall the girls decided to design their own proficiency badge, "Golden Friends."

And throughout the winter and spring they have been working on the nine badge requirements which include collecting articles about activities of older people, seeking ways to be of real help to older people, asking questions of many professionals skilled in working with older people, learning extra safety precautions for older people and writing or visiting with a grandparent or elderly relative or neighbor.

The troop, recently split into two troops, gave many special programs at Lakeside for all the residents but they also included their adopted grandparents in troop activities.

"It is a troop tradition to put the birthday person under the table, then sing 'Happy Birthday,'" explained Mrs. Wayne Foster, troop leader.

And the first grandpa included in that tradition "was just beaming. They feel so good about belonging, feeling a part of our group," she explained.

In the process of earning their Golden Friends badge, the scouts began watching the Nebraska Educational Television program "Grand Generation," a show for and about senior citizens. They also asked "Grand Generation"

PHOTO BY HARALD DREIMANIS

DOROTHY . . . Wilhelm (left) and Lori Hornung play hand game with Harry Sachtleben.

producer Ken Johnson for more information.

And Thursday evening, the whole group, plus four of their five adopted grandparents appeared on the ETV "Grand Generation" show to tell about their project.

The ETV program will be repeated Sunday at 7 p.m.

STAR PHOTO

AMERICAN INDIAN . . . Rebecca Solomon displays grandmother's shawl.

## Clinton Holds Fair

There were Mexican dances, Irish dances and Negro dances. Students cooked Kolaches and Indian fry bread. Some children roamed the school in costumes from other countries, other cultures.

Thursday at Clinton School was the culmination of a year of cultural awareness as the students participated in their own Cultural Fair.

Last fall, when the cultural awareness program began, the students in each grade level planned what they wanted to study during the year. One second grade class chose games, games from many different cultures. A fourth grade class spent time during the year learning about foods of different cultures, both in the United States and across the world.

And Thursday the students showed off what they had learned to parents and friends of Clinton School. Then, after a picnic lunch, they had an afternoon of just plain fun.

# Couples Say Wedding Vows

## Sapp-Keane

Miss Jane Elizabeth Sapp and Edward Joseph Keane of Sioux City, Iowa, were married Friday, May 17, in Sioux City.

Parents of the couple are Mr. and Mrs. Robert M. Sapp and Dr. and Mrs. Kenneth M. Keane, all of Sioux City, Iowa.

Mrs. Keane was a student at the University of Nebraska-Lincoln. The couple will live in Omaha.

## Shelley-Seder

The wedding of Miss Sarah Ellen Shelley and Dr. John Seder, both of Arlington, Va., took place Sunday, May 19, in Arlington.

The bride is the daughter of Mrs. Harold Shelley and the late Mr. Shelley. Dr. Seder's parents are Jules Seder of Los Angeles, Calif., and Mrs. Harry Kodinsky of Pittsburgh, Pa.

The couple will reside in Oakland, Calif., where Dr. Seder will intern at Highland General Hospital.

The bride was graduated from the University of Nebraska-Lincoln where she majored in English. She was an employee of the General Services Administration in Washington, D. C.

Dr. Seder was graduated from the University of California at Berkeley and the Georgetown University College of Medicine in Washington, D. C.

## Gabel-Clyne

Cynthia Eileen Gabel and Jerome Martin Clyne were married Tuesday, May 14, in the Cactus Tea Garden in San Antonio, Tex.

Parents of the couple are Mr. and Mrs. Lansing D. Gabel and Dr. and Mrs. Joyn C. Clyne.

The couple will reside in Lincoln.

## Another Victory?

Women Sports, a magazine for the active woman, is ready for distribution. The June, 1974 edition, Volume One, Number One, has been put together by a group financed by Billie Jean King, the tennis queen. One of the lead stories is by Ms. King. It's on winning.

# Lambs Are Snoopy, Friendly

By LINDA OLIG  
Star Staff Writer  
"Baa! Baa! Black sheep have you any wool?"  
That's what the old nursery rhyme asks.  
We, Sheep 1 and Sheep 2 think that is a ridiculous question. That's what sheep are all about. Cultivating wool for socks, sweaters and blankets — all the better to keep you warm my dears.  
Of course, we two little sheep haven't much wool yet, but just you wait. It's there but has yet to curl, like Mom's.

Give us some time to grow a bit and ours will be just as thick and curly as our mother's. But then, in a month or two we just may have more than she does. She had her wool (locks) shorn Thursday and now has no more than us. She will have to start all over again to prepare for her next annual shearing.  
Getting down to specifics, we are the twin daughters, or lambs, of Popcorn, the oldest Scottish four-horned sheep, or ewe, here in the Lincoln Children's Zoo's petting compound.

Four-horned sheep are really no different from other sheep — except they just happen to have twice as many horns.  
And we are just getting used to life here on earth, being born less than two weeks ago.  
From the very moment we joined the goats, llamas and donkeys in the confines of the petting compound, we knew we were going to like it here.  
Many people can't tell us apart yet because we look so much alike — both of us stand about a foot high and are black and white in color — and because, so

they say, we haven't developed any individuality yet. A lot they know!  
One thing's for sure, we are snoopy little creatures. We spend most of our time investigating the other animals in our home here at the zoo, as well as our many human visitors.  
And we also have been caught trying to sneak a peek at what's on the other side of the fence that shuts us off from the rest of the zoo animals. Taking advantage of our still tiny size, we squeezed through the slats of the fence to take a jaunt through the zoo.

When we returned, we were dismayed to find that it was earlier getting out than in — and so we had to call for help. You see, we still are a bit insecure. Whenever our mother gets out of our sight, we just cry and cry until she is again by our side.

But when visitors arrive, Popcorn — named that because of her insatiable desire for that white, fluffy stuff — sometimes ignores us, finding it much more profitable to beg alfalfa pellets from the youngsters who stop in for a visit.

We haven't developed a liking for those pellets yet, however. We still like our mother's milk. But someday soon, we will get to take a bite or two of grain.

Then we will try out our multiple stomachs, for which we are called ruminants, the same as the cow. With more than one stomach, we can eat lots of food

STAR PHOTO

BABY SHEEP . . . of the four-horned variety, explore their new home.

during the day and then, when we stop for a rest, we can chew the food all over again, sometimes referred to as "chewing our cud."

We have only bottom teeth to use for chewing our food or our cud. We sheep are just made that way, but it isn't too much of a handicap since, being primarily grazing animals, the adults eat grass and vegetation. When they

find what seems to be a tasty mouthful, they just scoop it up and shear it off with those bottom teeth.

That's how our father, Freight Train, gets food in his pen at Pioneer Park. He can't stay here with us in the petting compound because he is possessive and domineering (a typical male sheep, or ram trait) compared to our gentle mother.

He also is twice as big at Popcorn and has massive horns, enabling him to be a formidable foe when necessary.

## Miss Colleen Malone Engaged

Mrs. and Mrs. Bernard T. Malone Sr. announce the engagement of their daughter, Colleen Sue, to Douglas F. Carter, son of Mr. and Mrs. Frank Carter of Palisade.

Miss Malone, a University of Nebraska-Lincoln graduate is teaching in Lincoln. Her fiancé, an industrial engineer in Auburn, is also a UNL graduate.

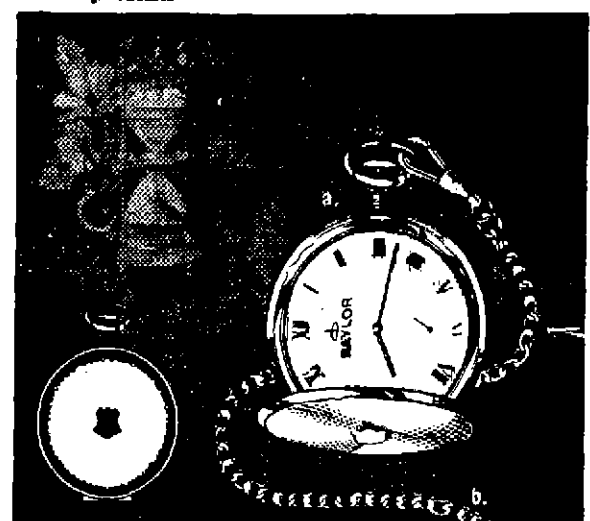

The couple is planning an August 24 wedding.

## Women Returning To College Is Subject of UNL Workshop

A Back-to-School workshop for women interested in returning to college will be held at the University of Nebraska-Lincoln Saturday, June 29.  
It is sponsored by the UNL

Alumni Association.

The purpose of the workshop is "to encourage women to enroll in the University; to identify for them a group of resource people; and to create a peer group which will enable them to more readily cope with the problems of enrolling," according to Carole Reno, program coordinator and director of alumni relations.

Workshop sessions will deal with such problems as financial aid, lack of information about university processes and confusion about placement tests, challenging courses and general programs.

Recent UNL alumnae who are "not in the traditional college age bracket" helped plan the workshop and will participate in small-group discussions, Ms. Reno said.

Tentative workshop sessions include a "Festival of Possibilities," a general introduction to campus; language placement examinations; registration, university life, a faculty presentation of general academic requirements and special student programs and an admissions and advising hour.

Women interested in registering for the workshop may contact Ms. Reno at the Alumni Office, P. O. Box 30186, Lincoln, Neb. 68503.

## Couple Sets

June 29 Date

Miss Paulette Watts and Richard Birr are planning a June 29 wedding at Central Alliance Church.

Miss Watts, daughter of Mr. and Mrs. Paul H. Watts, attended St. Paul Bible College and graduated from Lincoln School of Commerce.

Mr. Birr, son of Mr. and Mrs. Lee W. Birr of Oconto Falls, Wis., graduated from St. Paul Bible College.

They're carefree, machine washable texturized polyester in royal blue and white. Checked shirtjacket \$21, checked pants \$18, sleeveless shell \$11. Solid pants \$15, sleeveless checked shirt \$15. Sizes 8 to 16. Sportswear Downtown & Gateway. Grand Island Conestoga Mall.

We are observing the National Holiday and will be CLOSED on Monday, May 27 for Memorial Day.

## Sports Signals

By Bob Owens  
Star Sports Editor

### Future Cornhuskers On TV

At least three future Nebraska football players will be in contention for honors in the 72nd renewal of the Nebraska Boys High School track and field meet starting today at Omaha Burke. A field of 1,043 athletes will be competing.

Perhaps the most outstanding of the trio is Mike Thompson, sprinter from Omaha Holy Name, in Class B competition. His performances are Class A even though his school falls in the enrollment bracket for B class.

Thompson was a triple winner in last year's meet, capturing the 100, 220 and 440. So far this year, his 220 and 440 times rank his No. 1 in the state for all classes. His 440 mark of .48.5 seconds, if he could match it this weekend, would give him a Class B meet record.

The 5-10, 167 pound Thompson was a back at Holy Name. The other two standout trackmen who will enroll here in the fall are weightman Monte Anthony of Bellevue and sprinter Darrell Walton of Omaha South.

Anthony, a 6-3, 200 pound back last fall, has used his size and strength to throw the discus 169 feet even, second best in the state, and has put the 12-pound shot 55-11.

Walton, a 5-9, 160 pound end, has run the 100 in .09.8 and the 220 in .219.9. At that size and with that speed, he could be a possible split end or wingback for the Cornhuskers.

High school track always is a great show, and with Nebraska's four classes the fans who attend the meet certainly will get plenty of action for the price of admission.

If you can't be there, you can turn on your television set at 1 p.m. Saturday, tune to Channels 10 and 11 and watch all the fierce competition.

Woody Greeno, Nebraska Wesleyan's track coach, will provide the expert analysis with Mark Ahmann and Joe Patrick doing the action and interviews.

### Oklahoma Tops All-Sports List

The Big Eight Service Bureau's release on the 1973-74 all-sports competition shows Oklahoma as the league's top school with championships in three sports (football, baseball and tennis) and four second place finishes (wrestling, swimming, gymnastics and golf).

Nebraska placed seventh, turning in a second-place tie with Kansas in football, a third-place tie with Missouri in golf and a third spot in gymnastics for its highest finishes.

Only 25 points separated the first and last place teams, indicating again the balance of the Big Eight.

Kansas, which was runnerup, won titles in swimming, basketball and outdoor track. Oklahoma State, which placed third, also won three crowns (cross country, wrestling and golf). Here's the way they finished:

	ISU	KSU	OSU	CU	KU	MU	NU	OU
Cross Country	7	5	1	2	4	3	6	8
Football	7 <sup>th</sup>	7 <sup>th</sup>	4 <sup>th</sup>	7 <sup>th</sup>	2 <sup>nd</sup>	4 <sup>th</sup>	2 <sup>nd</sup>	1
Wrestling	3	4	1	7	8 <sup>th</sup>	5	6	2
Indoor Track	8	1	6	3	5	2	4	7
Swimming	3	8 <sup>th</sup>	4	6	1	5	7	2
Gymnastics	1	6	7 <sup>th</sup>	4	5	7 <sup>th</sup>	3	2
Basketball	5	2	7 <sup>th</sup>	6	1	7 <sup>th</sup>	4	3
Baseball	6	2	5	4	7	3	8	1
Outdoor Track	8	2	7	3	1	4	5	6
Golf	5	8	1	7	6	3 <sup>rd</sup>	3 <sup>rd</sup>	2
Tennis	7	6	2	4	3	5	8	1
TOTAL	60	51	46 <sup>th</sup>	53	43 <sup>rd</sup>	50	57	35

\* — Did not field a team, therefore awarded last place points.  
\* — Three teams tied for sixth place. Thus, the 21 total points for 6th, 7th, 8th places divided equally among the three.

## Sports Notes

The National Broadcasting Co. will add a touch of nostalgia to its "Baseball Game of the Week" Monday night with a pregame feature on the abandoned-nand demolished ballparks of the National League.

Julie Heldman of Houston, Tex., kept the United States in the \$72,000 Rothman's British Hard Court Tennis championships singles semi-finals when she beat 18-year-old Briton Sue Barker 6-3, 6-0 in Thursday's quarter-finals. Miss Heldman meets young Australian Dianne Fromholtz in Friday's semifinals.

Dan Rooney, president of the Pittsburgh Steelers, said Thursday attorneys for the NFL club were studying the possibility of legal action in an attempt to increase ticket prices for home games at Three Rivers Stadium.

Running back John Brockington has signed a multi-year contract with the NFL.

Green Bay Packers, team coach and general manager Dan Devine announced Thursday.

The New York Yankees placed veteran left-handed pitcher Sam McDowell on the 21-day disabled list Thursday and purchased southpaw Mike Wallace from their Syracuse farm club in the International League.

The Jersey Knights of the World Hockey Association Thursday announced the signing of a three-year lease for use of the San Diego Sports Arena, but Mayor Pete Wilson indicated it would be opposed by the city.

Jim Finks, former vice president and general manager of the Minnesota Vikings, was named Thursday as a consultant to the NFL's Management Council.

Earl Weaver of the Baltimore Orioles has been selected to manage this season's American League All Star team in place of the out-of-work Dick Williams.

# Indy Suit Dismissed

## Sunday's '500' On Schedule

INDIANAPOLIS, Ind. (UPI)

— A suit by five car owners, who claimed they weren't given a chance to qualify, was thrown out of court Thursday — assuring Sunday's running of the Indianapolis 500 would go off on schedule.

Superior Court Judge Frank A. Symmes Jr. ruled following one and one-half days of testimony that the drivers failed to "exhaust the remedies" available to them as provided by the contract they signed with the Indianapolis Motor Speedway.

An attorney for the drivers said they would continue to pursue damage suits still pending against the million-dollar race but conceded there was insufficient time before Sunday's race to appeal Symmes decision to a higher court.

Symmes ruled shortly after final carburetor tests for the 33 starters ended at the Speedway — the last running before the flying start of the race scheduled for noon EDT.

"It is difficult to accept this decision," said attorney Wright Huges Jr., who initiated the suit after qualifications ended last Saturday with 11 cars still waiting to be qualified. "But the judge has been quite fair."

Roy Woods of Marina Del

Rey, Calif., one of the five car owners involved in the suit, said the case for damages, in excess of \$1 million, would "definitely" be carried on.

"I think the judge bowed out on a technicality," Woods said. "Had he ruled in our favor, it would have placed the Speedway in a dilemma."

Had Symmes ruled in favor of the plaintiffs and ordered reopening of the time trials — and had cars now in the field been "bumped" by faster machines, additional law suits were sure to have been filed by the "bumped" drivers, officials pointed out.

Attorney Don Tabbert, who carried the legal load in court for the plaintiffs, said the case still pending was "based on breach of contract."

Symmes' ruling was based on the fact the car owners did not appeal a ruling by the United States Auto Club last Saturday denying an extension of qualifications.

The owners' recourse was to appeal the decision to a USAC board of judges. They did not do. Instead, they sought relief through the courts.

Car owners Lindsey Hopkins, Carl Gehlhausen and Marvin Webster, along with driver Eldon Rasmussen, testified

before Symmes' dismissal ruling.

Webster, Mill Valley, Calif., and Gehlhausen, Jasper, Ind., testified they were assured by a USAC official their cars "would get a chance to qualify."

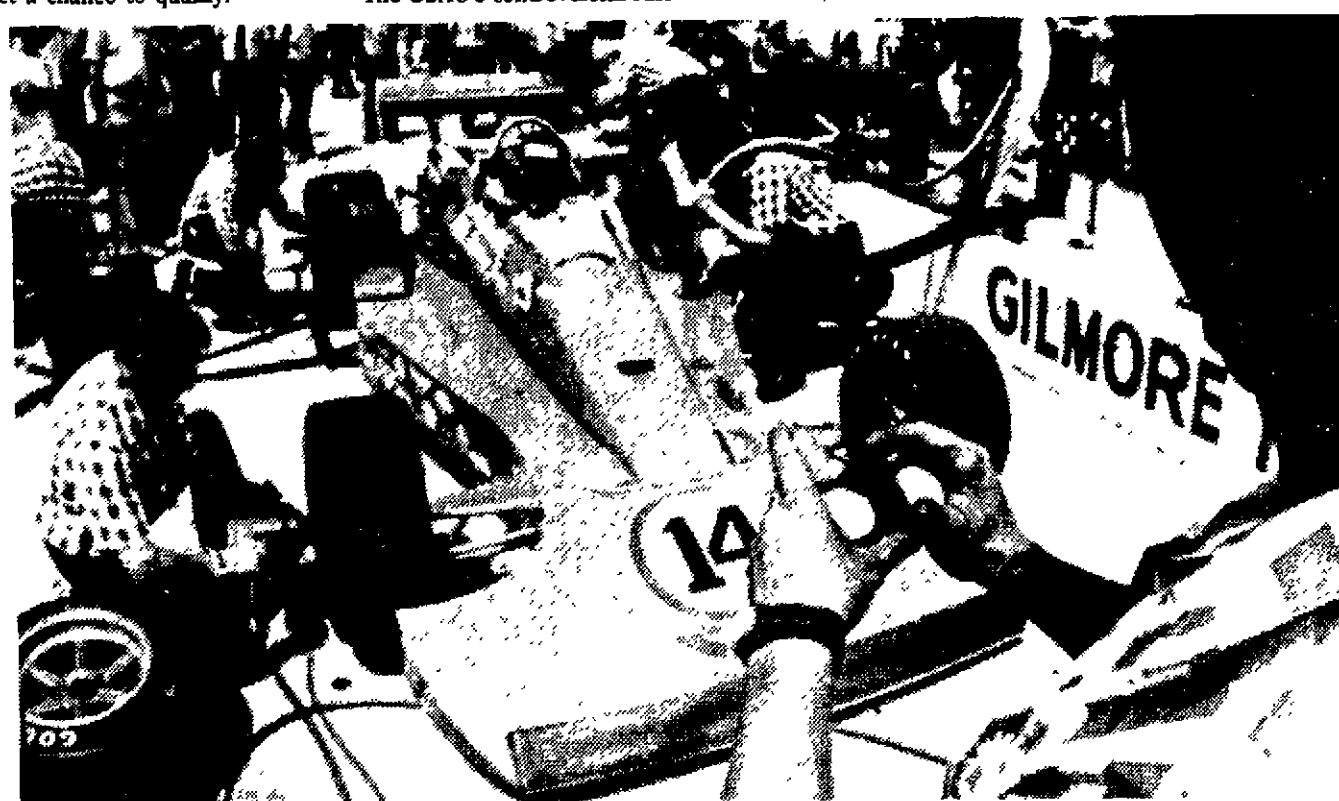

The USAC's controversial rule

stipulates that if a car presents itself for qualifications for a second time, the time trials can be brought to an end.

Consequently, once Parsons made it to the starting line the second time, the line of cars cer-

tified for qualification are no longer guaranteed.

Heavy rains cut into qualifying time Saturday and the previous Saturday, however, and many entrants did not get a chance to make the field.

A crewman times a practice stop for A.J. Foyt as drivers and crews completed last-minute preparations for this year's Indianapolis 500.

## Hester: Rockets Could Win State Track Title

By Randy York  
Prep Sports Writer

Max Hester realizes it will take an exceptional combination of the right breaks. But the veteran Lincoln Northeast track coach is counting on his Rockets being solid championship contenders in the state boys track meet Friday and Saturday at Omaha Burke.

"We need everything to go right, but I'd like to think we can score 40 points," calculates Hester. "We intend to be somewhere up there with Bellevue, North Platte, Tech, Burke and Benson."

Some Class A coaches have figured that 40 points could win the state meet this year unlike last year when Bellevue almost doubled runnerup Lincoln High's point total (85-47).

Hester has juggled his lineup in an effort to reach the 40-point plateau. He plans to have Terry Novak anchor the Rockets' already state-contending 2-mile relay.

"Terry's ready to go all out. He's in the best shape he's been in all season," acknowledges Hester. "His attitude is excellent. He's really got his heart set on a good performance."

Although Novak has placed in the 880 the previous two years, Hester concedes his senior standout "is not as fast as this year's field. But he's big and strong. And he'll run just as well on a bad day as he will on a good day. So, the weather will dictate where else he might run."

Northeast's 2-mile relay lost season-long leader Gary Gustafson at district. Mononucleosis sidelined the 3-year letterman and senior Craig Mundt substituted. Novak will replace Mundt in the lineup and team with junior Steve Leach, sophomore Burt Thompson and senior Dennis Luft.

Hester is counting on Mundt showing well in the 440. Jon

Leastman in the shot put and a strong effort from a mile relay quartet of Mundt, Leach, Chuck Sales and Novak.

"The hurdles are a precarious event," says Hester, who reasons that Rocket standouts Steve Elhker and Mike Kubek "could run their best of the season and not qualify. Then, again, they have the ability to place."

Novak would only get an hour's rest if he decides to come back from the 2-mile relay to run the open 880. He'll likely scratch from 440 for which he qualified.

Hester is also counting on what he calls "a sleeper" in sophomore miler Scott Resz, who surprised by winning the mile in district competition at Norfolk.

Other Lincoln state meet title threats include East sprinter Doug Caulkins, Lincoln High middle distance ace Jerry Klechka and Southeast hurdler Rick Brandt.

Lexington is favored to dethrone defending Class B state champion Gering, although Plattsmouth is considered championship timber.

Eight teams qualified more for the state meet than Valley, but it still may be the team to beat in a typically balanced Class C field in which Elkhorn Mt. Michael is the defending champion.

Farnam qualified 10 in an effort to defend its Class D title. Stapleton and Ansley are expected to give Farnam its stiffest competition.

KOLN-TV, KGIN-TV of Lincoln and Grand Island will telecast Saturday's finals live, starting at 1 p.m. The format also features videotape highlights of the morning's competition.

# Kemling Seeks Countess With Patsy's Reign, Queen's Turn

By MARK GORDON  
Star Sports Writer

Omaha — Does Paul Kemling have a new standard filly or is the old champion really ready for something special?

That question may be answered here Friday at Ak-Sar-Ben in the fourth running of the \$10,000-added Countess Stakes that matches 12 3-year-old Nebraska-bred fillies.

Kemling, the Aurora owner who dominated this spring's Fomner Park meeting in Grand Island, has entered his two top fillies, Queen's Turn and Patsy's Reign, in the Countess.

Patsy has the more impressive credentials this year, but Queen's Turn undoubtedly was the standout 2-year-old filly in Nebraska one year ago.

Queen's Turn earned \$47,619

and captured the Fomner Park Juvenile Stakes and Expectation Stakes and the Ak-Sar-Ben \$22,100 Lassie Stakes and the \$26,000 Futurity Stakes. This year, however, she has constantly disappointed her backers, only having scored one triumph in seven appearances.

While Queen's Turn has failed to match her 1973 record, Patsy seems to get stronger with each outing.

She has already scored two victories, two seconds and two thirds in six runs for winnings of \$12,267. Her triumphs were achieved at Fomner Park in the \$8,187 first division of the Gas Farmer Handicap and in the \$3,500 Baxter Handicap.

Perhaps her best run was less than two weeks ago when she placed third in the \$21,900 Ambassador's Handicap over 6

furlongs. She closed strongly under j

## NCAA Continues Feud With AAU

CHICAGO (AP) — The National Collegiate Athletic Association and two affiliates went to federal court Thursday with another disagreement in its long feud with the Amateur Athletic Union.

At stake is participation by foreign prep school students next month in the National Junior Championships of the U.S. Track and Field Federation at Mount Prospect, Ill.

The issue is a new NCAA rule which says a student can become a professional in one sport without necessarily losing his amateur status in others.

The petition filed in the U.S. District Court for Northern Illinois by the NCAA, the USTFF and the Northern Illinois Track Coaches Association asks for an order requiring the AAU to invite foreign track stars to the June 8 meet at Mount Prospect.

It alleges that the AAU's refusal to handle the invitations, as it has in the past, amounts to an attempt at illegal monopolization and a malicious attempt to interfere with the junior championships.

### LH's Mosser

#### To Logan View

Tom Mosser, the sophomore basketball coach and freshman football coach at Lincoln High, has been named athletic director and head basketball coach at Logan View High School in Hooper.

Mosser, a Peru State grad, says one of the biggest challenges his first year as a head coach will come when he takes his team to Blair next winter. "My twin brother Joe is the Blair coach," Mosser explains.

Mosser has two other coaching brothers, Jerry at Bellevue College and Tim, an assistant coach at Omaha North.

The quartet are sons of Neal Mosser, longtime Omaha Tech coach, who is now Dean of Boys at Omaha South.

The NCAA says the AAU has declined to invite foreign athletes because it says their amateur status might be jeopardized by competing at Mount Prospect against athletes who competed in the high school division of the Texas relays.

The NCAA says this AAU contention is based on another AAU argument that all participants in the Texas relays could become "tainted" by the presence there this year of Larry Jones.

Jones is from Northeast Missouri State University and won the 440 at the Texas, Kansas, and Drake relays this season after signing a contract with the New York Giants of the National Football League.

## Kearney St. Eliminated

Oklahoma City (AP) — Southeastern Oklahoma rallied from a 6-0 deficit Thursday afternoon to defeat Kearney, Neb., 10-8, and move into the NAIA Area 3 baseball finals Thursday night against Fort Hays, Kan.

Southeastern's rally began when Kearney pitcher Ken Vergith's sparkling performance faltered after two outs in the sixth inning of the afternoon game.

Vergith walked the bases full, walked in Southeastern's first run, then yielded a single to Tony Cazele that brought in two more, narrowing the score to 6-3.

Then Bobby Schumann rapped a single to make it 6-4, and Vergith was pulled from the mound in favor of Lonnie Richards.

Richards promptly served up a three-run homer to Joe Shaddix, and the Savages never trailed again. The loss eliminated Kearney.

Southeastern . . . 000 007 201—10 10 3  
Kearney, Neb. . . . 409 110 002—8 13 1

### The Sky's the Limit -

for Chief Warrant Officer Don Love of the Nebraska Army National Guard!

Don enlisted as a Private in the Nebraska Army National Guard. Since then, he has received considerable training in aircraft mechanics. In 1969, his dreams came true when he qualified as a Warrant Officer and was sent to Army Helicopter Pilot Training. He is now a Nebraska Army National Guard aviator and flight instructor and Test Pilot. The Sky can be the limit for you too. If you want to investigate the opportunities in the Nebraska Army National Guard aviation program, find out how you can qualify for an enlistment bonus and then get help with tuition paid to a state-funded school in Nebraska. All this while a member of the Nebraska Army National Guard. Call your nearest armory for details or call Don Love in Lincoln. The telephone number is 464-1787.

This ad paid for by the following, promoting the best interests of the Nebraska Army National Guard recruiting program.

Milwaukee's second-baseman Pete Garcia goes high in the air to avoid Detroit's Bill Freehan in the second inning. The throw to first completed a double play.

# G. Perry Gains Seventh Victory

By The Associated Press  
Gaylord Perry, who hasn't lost since opening day, recorded his seventh consecutive victory Thursday night, limiting Baltimore to three hits and pitching the Cleveland Indians to a 2-0 decision over the Orioles.

Both Cleveland runs off Jim Palmer 2-5, were unearned. George Hendrick's sixth-inning single snapped a 21-inning scoreless strug for the Indians. Cleveland added an insurance run in the seventh when Charlie Spikes singled and came around to score when Baltimore left fielder Al Bumbry made a throwing error following Leron Lee's single.

Perry, 7-1, was touched for singles by Mike Reinbach in the third inning and Bobby Grieb in the fourth and Brooks Robinson's double in the fifth.

Elsewhere in the American League, George Scott's pop fly triple in the seventh inning drove home Dave May with the go-ahead run, then Milwaukee added three insurance tallies in the eighth inning and beat the Detroit Tigers 7-3.

Nolan Ryan pitched a four-

hitter and struck out six, leading the California Angels to a 3-1 victory over the Kansas City Royals. Bobby Valentine's bases-loaded sacrifice fly in the seventh inning drove in the tie-breaking run.

Ed Herrmann's triple keyed a two-run fourth inning, then Ron Santo drove in a pair of runs in a three-run fifth to lead the Chicago White Sox to a 9-6 triumph over the Texas Rangers.

Texas' Jeff Burroughs slammed his 11th homer of the year, driving in his 46th run of the season, tops in the American League. It marked the 10th consecutive game in which he has driven in at least one run, only one game short of the major league record shared by Babe Ruth and Mel Ott.

In the National League, Willie Davis and Barry Foote each drove in two runs to help the Montreal Expos beat the Pittsburgh Pirates 5-4 in a game which was delayed for nearly an hour when a heavy fog enshrouded the field during the sixth inning.

In West Coast night action, Cincinnati won at San Diego and Los Angeles at San Francisco.

The Chicago Cubs' game at New York against the Mets was rained out.

# Adams 'Skips' NBA Drafting

Boulder, Colo. (UPI) — Oklahoma center Alvan Adams said Thursday he withdrew from the National Basketball Association hardship draft because the Phoenix Suns would not guarantee they would select him in the first round.

"I wasn't sure when they would draft me," said Adams, who has two years of college eligibility left. "They might feel they could take me in the third round because no one else would draft me and then I'd wind up playing for someone other than Phoenix. I just wasn't sure I was going to Phoenix and I didn't want to play anywhere else."

At 6-10, Adams was considered one of the prime big men in the country. He led the Big Eight in scoring last year with a 21.2 average. The pre-med student, who carries a 3.7 grade average,

# Dula Takes 1st In Racquetball

Bob Dula won the 1974 Class A Singles Lincoln Racquetball championship and teamed with Robert Pazderka to take the Class A doubles championship, as announced at presentation ceremonies at Lincoln Elks Lodge Thursday night.

Winning second place in Class A singles was Mike Hughes. The Class B singles champ was Leon Olson, with Terry Morrison runnerup. In Class C Bill Rolfsmeyer edged Bob McRoberts for first place.

At McDowell and Don Linscott won second place in the doubles competition, with Jim Russell and Tom Perrin garnering third place honors.

# Player, Curl Knotted In Memphis Classic

MEMPHIS, Tenn. (UPI) — Mighty mites Gary Player and Rod Curl matched course record 7-under-par 65's Thursday to tie for a one-stroke lead in the first round of the \$175,000 Memphis Golf Classic.

"I started like a hot dog and finished like a pro," said Curl, a Wintu Indian who won \$50,000 with his first tournament victory in the Colonial at Fort Worth, Tex., last week. He birdied 16, 17 and 18.

Curl and Player, the little South African who won his second masters tournament this year, each played flawless golf with seven birdies and no bogeys over the 7,193-yard Colonial Country Club course. The old record was 66.

Curl stands only five inches over five feet and Player is 5-8. One stroke back of the two with 66s were Jim Colbert, Larry Zeigler, Hubert Green and Bob Wynn.

Among a crowd of 67 was defending champion Dave Hill, who along with Lee Trevino has dominated this tournament the last five years in a row. Trevino blew to an opening 73 including a double bogey on the par-five 18th hole.

"I putted very nicely," said Player. "It's like a dream and I'm recovering my strength well after two operations last year in South Africa."

"Of course, I have my mind on the grand slam. You have to get the right kind of weather and the luck of the draw—but it's certainly possible." He said he would enter the British Open, the PGA and the U. S. Open later this year.

The pros burned up what has a reputation for being a tough golf course and officials said that tees would be moved back later because of it.

The sunny day turned gloomy for second-year pro Bruce Ashworth of Las Vegas, who fired a 68, then was disqualified when one of his playing partners failed to sign Ashworth's score card.

"It's my own fault," said the dejected Ashworth, 24. "He (Robert Nichols) handed it to me and forgot to sign it. I should have noticed it."

Ashworth has fallen short of expenses on the tour this year with only \$950 in winnings and his best opening round of the year would have given him a chance at a good Memphis check.

# Drowning Claims Analyst Carr

SPRINGFIELD, Tenn. (UPI) — Don Carr, whose sports rating service was used by more than 100 newspapers across the U. S., drowned Wednesday when his car was swept off a bridge by the rampaging waters of a creek.

His body was found early today about 400 yards downstream from the bridge.

Robertson County authorities said Carr was last seen leaving work Wednesday morning at 7 a.m. Officials said his automobile was found near the washed out bridge over Sycamore Creek.

Carr, 43, rated college football and basketball teams and projected winners of games of most colleges in the U. S.

In an interview with UPI several years ago, Carr told about his rating system. He said he based it on a secret formula involving the coaching staffs, schedule, player personnel and site of games.

He said he developed it over the years and had planned to go into it full time.

# Tarrence Wins Three In Meet

Gary Tarrence of Lincoln High was a triple winner and Bill Holmes of East a double winner Thursday in the annual Lincoln Public Schools nonqualifiers track meet.

The meet gives competition to those undergraduates who did not qualify for the state meet.

Tarrence won the 100 yard dash (:10.6) and the 220 (:22.9) and was on the Lincoln High's winning 880 Relay team. Tarrence also long jumped 20-7 to win that event.

Holmes won the two hurdle events, the highs in :15.8, and the lows in :21.6. Rech of East was just off the winner's pace in each event.

# ASTROLOGICAL FORECAST

By SIDNEY OMARR

## Forecast For Friday

Gemini and Sagittarius persons express outrageous opinions whether or not they are familiar with the subjects under discussion. Taurus prefers the blunt shock technique while Libra subtly tips the scales first one way and then to the other side.

☆☆☆

**ARIES** (March 21-April 19) There are roadblocks but eventually you get what is required. Be persistent, not obstinate. Shrink complaints, turn away from what would be your allies. Find ways to compromise.

**TAURUS** (April 20-May 20) Relatives could be heavy handed. Try to see what is obscured or behind the scenes. Discern reasons. Don't rush to judgment. Refuse to be disturbed by allegations. And don't let white upset. Pace yourself. Call or message could have double meaning.

**GEMINI** (May 21-June 20) Money question depends on assets of mate or partner. Remember promises obligations. You will be facing yourself in morning. Older individual is willing to share experience. You could be direct beneficiary.

**CANCER** (June 21-July 22) Weight of added responsibility becomes apparent. Obtain valid hint from Gemini message. Avoid basing actions on impulse. Pace should be slowed. You are finishing rather than beginning project. Don't hand out past. Let go of situations persons—perm it yourself to be free.

**LEO** (July 23-Aug. 22) Study Aries message. Be independent without offending no one who aided you in past. Another Leo and an Aquarian figure prominently. You may be delayed by red tape. However, it's probably boomerangs in your favor.

**VIRGO** (Aug. 23-Sept. 22) Avoid wishful thinking in connection with finances. Friend confides plan. Key is to be realistic. You can't buy solutions.

**LIBRA** (Sept. 23-Oct. 22) You are able to view potential. You gain valid glimpse of future. Optimism will replace doubt—social contact leads to meaningful relationship experience.

**SCORPIO** (Oct. 23-Nov. 21) Be subtle. Play cards close to chest. Don't tell all—instead, hold something in reserve. Surprise element is important. Travel plan could be rescheduled or delayed.

**SAGITTARIUS** (Nov. 22-Dec. 21) Change, variety, movement and special investigation is featured. Favors you did in past are resented. One who thought was indifferent proves otherwise. You get involved. You receive interesting offer. Be analytical.

**CAPRICORN** (Dec. 22-Jan. 19) Lie low. Wait and see. Touch all bases. Refuse to sign legal document until careful study is completed. Accent is on joint efforts, public relations, marriage and how you deal with opposition.

**AQUARIUS** (Jan. 20-Feb. 18) Study Capricorn message. Carefully check. Your sense of direction could veer off base. Know it and take proper precautions. One who works with you could be sluggish.

**PISCES** (Feb. 19-March 20) Commitment is made — involves one who has expressed love. Don't play games — cost is high and for keeps. You get chance to prove major point. You also will have added responsibility — and could gain greater reward, emotional and financial.

**IF TODAY IS YOUR BIRTHDAY** You have unusual voice. Throat trouble is no stranger and you are musical, artistic and affectionate. You're no angel but your principles are high and you would not deliberately hurt people. March and December are your most significant months this year. In June you get chance to join forces with one who is compassionate, knowledgeable and has your best interests at heart.

**ORDINANCE NO. 31100**  
AN ORDINANCE relating to zoning amending Chapter 27-40 of the Lincoln Municipal Code to provide regulations for the issuance of use permits in the J-1 Planned Regional Commercial District BE IT ORDAINED by the City Council of the City of Lincoln, Nebraska, that Chapter 27-40 of the Lincoln Municipal Code is hereby amended by adding a new section to be numbered Section 27-40.145 to read as follows:  
27-40.145 Planned regional commercial centers (a) General standards. The regulations for the J-1 Planned Regional Commercial District set forth in Chapter 27-33 of this Title are established to permit the development of regional retail shopping facilities and related activities which will provide for planned and controlled consumer services for all segments of the population promote healthful economic growth, create a desirable environment, best complement the general land use pattern of the community and assist in implementing the established goals and policies of the community.  
(b) Environmental performance standards. Any applicant for a use permit under the provisions of this section shall comply with environmental performance standards relating to noise, emission, dust, odor, glare and heat as shall be provided by ordinance or by departmental rules and regulations and approved by resolution of the City Council.  
(c) Environmental impact statement. Where any application for a change of zone to the J-1 Planned Regional Commercial District and for a use permit under the provisions of this section substantially deviates from the Comprehensive Plan in terms of location or size as determined by the planning director, the applicant shall submit an environmental impact statement, a market analysis which shall serve as a guide to the City Council and Planning Commission for evaluation of such application in terms of need, desirability, sustainability and its implications on the overall growth of the community. The planning director shall develop appropriate written standards and forms for such environmental impact statement and market analysis which shall be approved by the Planning Commission.  
(d) Landscape plan. Each application for a use permit under this section shall include a landscape plan which shall show proposed plantings in conformance with city standards in all required yard areas, open space areas, malls, parking areas and around proposed buildings. The planning director shall develop appropriate written standards for such landscape plans which standards shall be approved by the Planning Commission.  
(e) Application requirements. Applications for a use permit under this section shall be filed in writing on a form provided by the city with the Building Inspections Division of the Department of Public Works. A preliminary plan shall accompany each application and shall include the following information:  
(1) Boundary survey and gross acreage.  
(2) Topography as required by Department of Public Works.  
(3) Street right-of-way.  
(4) Utility easements.  
(5) Adjacent land use and zoning classification.  
(6) Location of structures on property.  
(7) Vicinity map.  
(8) Date prepared, scale and north arrow.  
(9) Schematic building layout.  
(10) Parking areas and capacity.  
(11) Ingress and egress design for the project.  
(12) Use of buildings, such as retail, service, restaurant, office, residential and other uses. Buildings to be included in the first phase construction shall include tenant occupancies where known.  
(13) Acreage and percentage of total developed building area, parking lot, open space and malls etc.  
(14) Height of buildings.  
(15) Proposed landscape plan.  
(16) Proposed vehicular and pedestrian circulation system.  
(17) Building and parking set back lines.  
(18) Grading plan.  
(19) Phase of development and proposed starting dates.  
(20) Discussion of adverse environmental effects of the project and proposed steps to minimize these effects.  
(21) On site and off site water and sanitary sewer improvements.  
(22) On site and off site drainage and sewer improvements.  
(23) Location of proposed free standing signs.  
(24) Typical structure design for paying of parking lots and sidewalks.  
(25) Proposed name of the shopping center.  
(f) Planning Commission review. Upon the filing of an application together with all maps, data and information required by this section, the Planning Commission shall hold a public hearing upon such application and make a report to the City Council regarding the effect of the proposed use upon the surrounding neighborhood, the community as a whole and other matters relating to public health, safety and general welfare. The City Council shall take no final action upon any application for a use permit until the City Clerk, provided that in the event there is undue delay on the part of the Planning Commission in reporting its recommendations to the City Council, the applicant may appeal to the City Council requesting final action. If the City Council determines that the delay of the Planning Commission is unjustified, it shall direct the Commission to submit a report within 10 days from the date of such determination.  
(g) Council consideration and final action. Upon receipt of a report from the Planning Commission, the City Council shall proceed to give final consideration to the application and require that certain conditions be met by the applicant in conjunction with approval of the use permit applied for. The Council may require the execution of a written agreement with the city relating to the installation of public improvements by the applicant together with the execution of performance bonds or providing of other appropriate surety relating thereto. The installation of all public improvements shall be accomplished in compliance with existing city standards as provided by ordinance or by departmental publications approved by resolution of the City Council. Failure of any applicant to comply with any condition of the City Council in connection with approval of a use permit shall have the effect of rendering the same null and void and of no force or effect.  
(h) Adjustment of yard requirements and height restrictions. The City Council may increase or decrease the minimum yard requirements and height restrictions set forth in Chapter 27-33 of this title to the extent necessary to adequately protect the environment of adjacent land uses.  
(i) Administrative amendment. The planning director is authorized to approve administrative amendments to any use permit granted under this section, including square footage of floor area and storage space in phases of development provided that any such amendment shall not violate any regulations set forth in this title and shall not provide for any increase in total floor area and storage space originally permitted by the City Council. The planning director may require the filing of additional documentation in connection with any requested administrative amendment.  
(j) Building and occupancy permits.

Upon the approval of a use permit by the City Council under this section, building permits may be issued. Certificates of occupancy shall not be issued until there has been compliance with all conditions of a use permit and subsequent administrative amendments within each phase of development of a use permit. Section 2 of this ordinance shall take effect from and after its passage and publication according to law.  
Introduced by Sue Bailey  
Passed May 20, 1974  
Harold W. Springer, City Clerk

**PUBLIC NOTICE**  
FEDERAL APPROVAL RECEIVED FOR HIGHWAY LOCATION AND DESIGN STUDY  
TO WHOM IT MAY CONCERN  
Notice is hereby given that the Nebraska Department of Roads has received approval of the Federal Highway Administration for the study of location and design of Project HHS 77-2107155 Ruskin Place Intersection.  
The proposed construction of 8 inch reinforced concrete pavement 24 feet wide along U.S. Highway 77 beginning at the Union Pacific and Burlington Northern railroad viaduct south of Lincoln, Nebraska, and extending northeasterly about 3,000 feet to the south junction of 14th Street and U.S. 77. The new pavement will be located west of the existing two lane facility.  
A Location and Design Study Report is available for public inspection at the Department of Roads District Office 302 Superior Street, Lincoln, Nebraska. The report and other project information including the environmental impact study are available upon request to the Department of Roads.  
The City of Waverly, Nebraska, will receive sealed bids for construction of ELEVATED WATER TANK until 2:00 o'clock P.M. Central Daylight Time at the City Council Chamber at Waverly, Nebraska, on Thursday, 6th day of June 1974 at which time and place all bids will be publicly opened and read aloud.  
The Contract Documents including plans and specifications are on file at the office of the City Clerk at Waverly, Nebraska and at the office of Hoskins Western Sanderger, Inc., Engineers, 825 J Street, Lincoln, Nebraska. Copies of the documents may be obtained by paying \$10.00, none of which will be refunded to Hoskins Western Sanderger, Inc. for each set of documents so obtained.  
Each bid shall be accompanied in a separate sealed envelope by a certified or cashier's check drawn on a solvent bank in the State of Nebraska in an amount not less than 5% of the amount bid and shall be made payable to the City Treasurer of the City of Waverly, Nebraska as security that the bidder to whom the contract may be awarded will enter into a contract to build the improvement in accordance with this notice and give bond in the sum as hereinafter provided for construction of the improvement. Checks accompanying bids not accepted shall be returned to the bidders. Bid bond will not be considered.  
No bids shall be withdrawn after opening the bids without the consent of the City of Waverly for a period of 60 days after the scheduled time of closing bids.  
The City of Waverly reserves the right to reject any or all bids and to waive any informalities in bidding.  
The successful bidder will be required to furnish the City of Waverly with a bond in the sum of the full amount of the contracts.  
In general, the improvement on which bids are requested will require construction of one of the following alternatives:  
Alternative No. 1 consisting of a new 500,000 gallon elevated steel water tank and appurtenances.  
Alternative No. 2 consisting of a new 500,000 gallon elevated steel water tank including, disassembly, moving from Relston to Waverly, erecting and new appurtenances.  
Dated at Waverly, Nebraska, this 6th day of May, 1974

# Child Support Records Check Back To '72 Required

**By The Associated Press**  
District court clerks will have to go back to 1972 records to gather information on people who have failed to make child

support payments, according to an opinion from Atty. Gen. Clarence A. H. Meyer.  
Nebraska's 1972 divorce law was amended in March of this

year to give courts the authority to initiate contempt proceedings against those who don't make payments.  
Meyer was asked what responsibility the court clerks would

have in checking the old records for possible delinquencies.  
Meyer said a portion of the 1972 law says it "shall apply to all proceedings" on or after July 6, 1972, including those pending on that date.

Each month, clerks are to certify and cases that are more than 30 days delinquent. The law then requires the court to set contempt proceedings in motion.

## All-State Fine Arts Program To Begin June 12

Approximately 270 students from more than 100 high schools throughout Nebraska and three other states will take part in this year's All-State Fine Arts Program to be held June 12-28 at the University of Nebraska-Lincoln.

The All-State program, offered to high school students for

almost 40 years, provides students an opportunity to study under the supervision of experienced professional in-

structors in art, music, dance, speech and theatre. Students may earn up to five hours of high school credit in the Fine Arts.

### Clothing Is Stolen

Clothing, a sleeping bag and several other articles valued at a total of \$537 were taken from the Karl T. Rudd residence at 2215 Q, according to police reports

Thursday. Police said the burglar or burglars apparently opened a window to gain entrance.

## Hickman Named To New Position

Kent Hickman, current administrative assistant to the executive secretary of the State Board of Educational Lands and Funds, will take over as executive secretary on June 1.

Hickman, who is from Ord, Neb., is now assistant to Morris R. Reynolds. Reynolds is stepping down to accept a position as field representative for the board in eastern Nebraska.

Going to move? Then notify the Circulation Dept. so you won't miss your paper. Be sure to give both old and new address.

He was 25 years old.  
He combed his hair like James Dean.  
He was very fastidious.  
People who littered bothered him.  
She was 15.  
She took music lessons and could twirl a baton.  
She wasn't very popular at school.  
For awhile they lived together in a tree house.  
In 1959, she watched while he killed a lot of people.

# Badlands

## The Clamps Are Off Now

Mrs. Shirley Turner, 36, of Nottingham, England, shows a dress she wore six months ago when she weighed 247 pounds. She achieved her present 146 pounds by having her jaws clamped shut in November, 1973, to stop her from eating solid food. She has two teenage daughters, and the family is planning a holiday shortly, by which time she expects to be down to her target weight of 136 pounds.

## Deaths And Funerals

## Board OKs Parole Of Omaha Kidnaper

By United Press International  
The State Parole Board granted a parole Thursday to a man originally sentenced to life imprisonment for kidnapping three Omaha teenagers and their mother in 1962.

Junior James Salanitro, 31, was sentenced to life by the Douglas County District Court in connection with an incident in which the wife and three children of Harris S. Lewis were held at gunpoint.

Salanitro appeared before the Pardon Board on the Parole Board's recommendation in 1970 for a commutation of sentence and again in January of this year.

His sentence was reduced in 1970 but needed the additional reduction of this year to make him eligible for parole now.

In all, the parole unit granted paroles to four persons, denied two and deferred one.

Among those granted parole besides Salanitro was Robert Newell Pilgrim, 49, who was convicted of second degree murder by the Dakota County District Court and sentenced to 16 years in prison in 1967.

Pilgrim, whose home was in Jackson, was convicted for the stabbing death of his wife. Denied was Jerry Ryan, 31, Omaha, who was convicted of burglary by the Douglas County

## Sertoma Club Gives Award To Lt. Miller

Lt. John Miller of the Lincoln Police Department Thursday was presented with a Sertoma Club award for outstanding achievement in advanced training in law enforcement.

Miller recently graduated at the head of his class from the Federal Bureau of Investigation Academy in Virginia. He was awarded the J. Edgar Hoover Award upon his graduation.

Trooper Bruce K. Miller of the Nebraska State Patrol was presented with a service award for achievements in basic law enforcement training at the Patrol Academy.

A new award for volunteer service went to Ardis Lewis for her work in the "Volunteers in Probation" program.

## Boxcar Supply Hearing Planned By House Panel

Omaha (AP) — Rep. John Y. McCollister, R-Neb., announced Thursday that the House Select Committee on Small Business would hold a hearing on boxcar shortages May 31 in the Omaha Federal Building.

McCollister said, "The hearings will trace the movement of grain from the farmer to the consumer, whether by rail, truck or barge."

"Grain exports have increased from 47.7 million metric tons in fiscal year 1968 to 87.7 million metric tons this fiscal year," he said, "and the chance for small business to take advantage of this boom depends on a reliable transportation system."
